

Dear interested PhDs and Postdocs,

A miniworkshop will be held at the conference room, 1st floor, Berkaer Str. 9, Weimar at 20th November 2013 from 1 pm to 4 pm. Within this miniworkshop Jafar Amani, MSc. will lecture on "Are artificial neural networks suitable for quantifying model quality?", which is followed by a moderated discussion on the possibilities and limitations of the presented theory. Interested PhD students are warmly invited to join this miniworkshop. Please let us know until 18th November, if you would like to join us.

Kind regards,
Maximilian Huber & Jafar Amani

Miniworkshop

Are artificial neural networks suitable for quantifying model quality?
