RADIOPHONIC SPACES. AN ACOUSTIC TOUR OF RADIO ART

A collaboration between Bauhaus University, Weimar, Haus der Kulturen der Welt and University of Basel.

The realm of art and the realm of radio are not so estranged from each other as one might initially think. Alongside writers, composers, theatre producers and filmmakers, artists also utilize the possibilities of this ephemeral medium. 200 selected treasures of international radio art can be experienced through an artistically designed trail. Among others with Antonin Artaud, Samuel Beckett, John Cage, Friederike Mayröcker to Michaela Mélian, Brandon LaBelle, Ahmet Ögüt or Natascha Sadr Haghghian.
