## Yes! I am destined for Bauhaus!

The Bauhaus-Universität Weimar is the ideal location to develop your talents in an environment that welcomes flexibility and experimentation. The small campus and the focus on interdisciplinary work between the four different faculties – Architecture and Urbanism, Civil Engineering, Art and Design, and Media – provide ideal conditions for work and study. The city of Weimar offers students inspiration through its long and rich cultural history. The city and the university impart a cosmopolitan flair and provide a sturdy foundation upon which you can develop your own ideas and projects.

## Application Procedures

At the Bauhaus-Universität Weimar, you apply online to a degree programme of your choice. For some degree programmes, applicants need to pass a selection process which is usually comprised of an aptitude assessment procedure or an artistic aptitude test before you apply online. [www.uni-weimar.de/studies](http://www.uni-weimar.de/studies)

### Degree programmes with »open admission«

There are no admission restrictions for these degree programmes (e.g. no Numerus Clausus) nor any other type of selection procedures. If you meet the entry requirements, then you can enrol immediately.

### Degree programmes with an »artistic aptitude test« or an »selection procedure«

In order to enrol in one of these degree programmes, you must first pass the artistic aptitude test. The aptitude test is used to determine the artistic and creative aptitude of the applicant.

### Degree programmes with an »aptitude assessment procedure«

During an aptitude assessment procedure, both the level of your University Entrance Certificate (grade point average) as well as the subject-specific abilities in the form of an aptitude test, statement of motivation, additional qualifications, practical experiences and the results from the selection procedure interviews will be taken into consideration. The relevant criteria for the application will depend upon the respective degree programme. It is only possible to enrol for one of these degree programmes after the successful completion of the particular aptitude assessment procedure.

### Degree programmes with »qualification check« or »selection procedure«

A qualification check or selection procedure is conducted to determine whether or not your current knowledge and abilities suffice to meet the subject-specific challenges of the desired degree programme. The examination committee will therefore inspect your submitted application documents to determine whether or not you may be granted admission to the programme.
