

Museum, Gallery

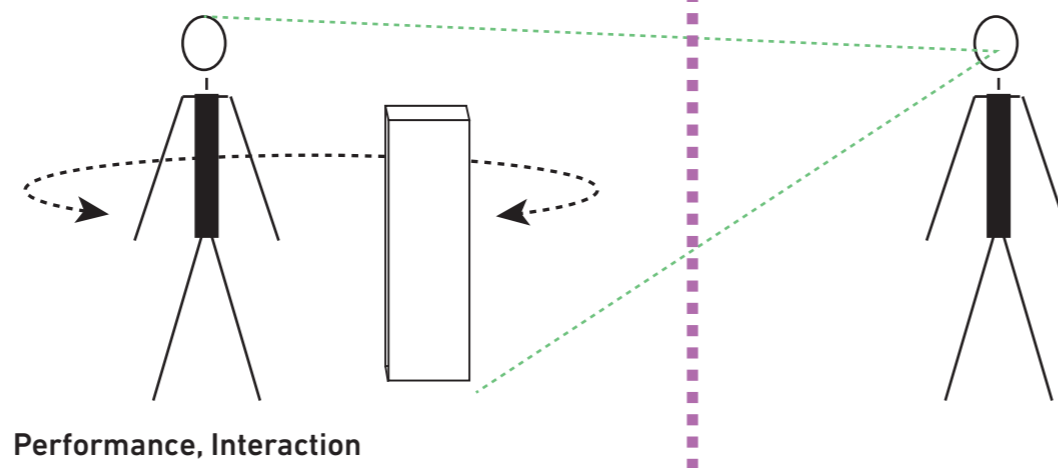

Sphere of audience

no agency

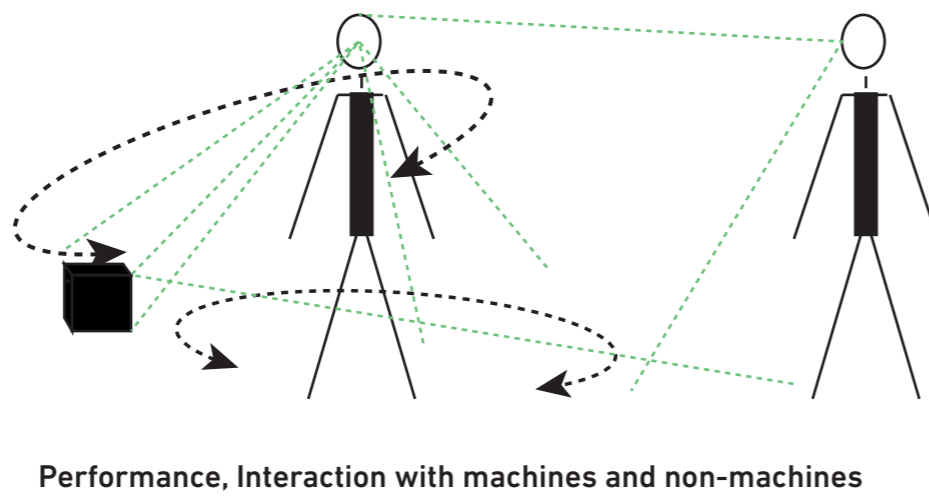

1. Art represents, audience is perceiving (painting, sculpture...)

interaction with the artwork

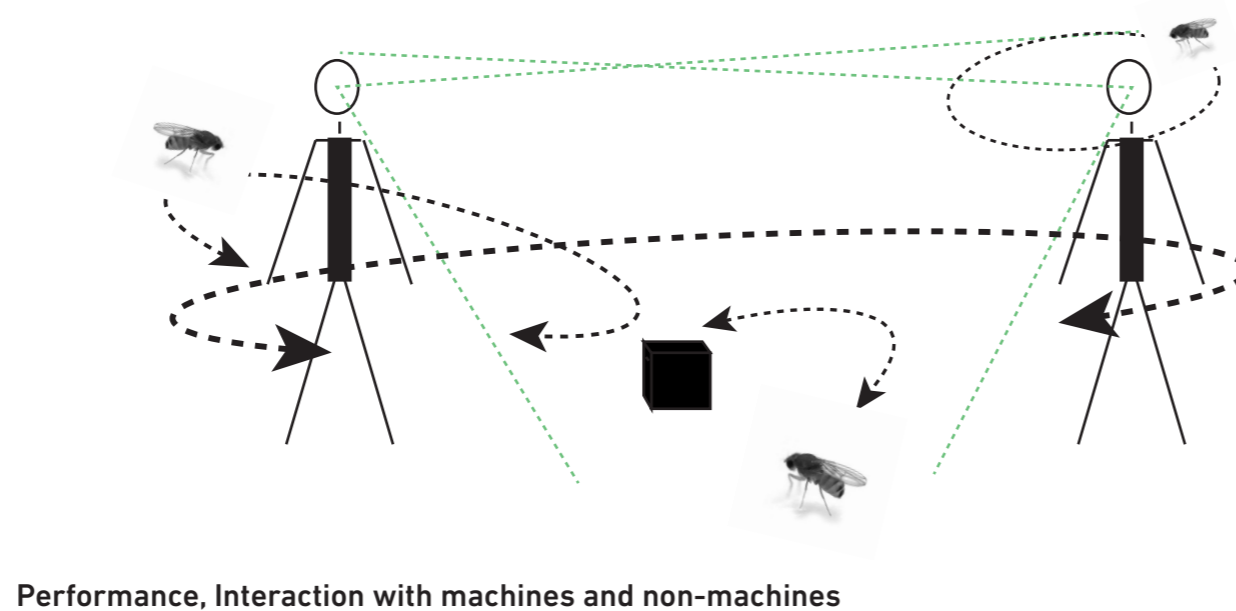

2. Within the artwork, the artist acts (as a performer) and the audience perceives

interaction with multiple actors

3. The artist and the audience interact with machines

recursive reciprocal interaction

4. Human and non-human activities come together and are shared with an audience which can interact (happening, maker culture, open performative formats)
