SEMESTER ■ SUMMER 2013

- is a platform for professionals, students and amateur cartoonists to exhibit their works for free.
- is a hub of entertainment and education for cartoons or comics lovers .
- is a networking platform for like-minded people (cartoonists, fans, mentors, students)
- offers tutorials and tips to users who want to improve on their skills or learn different comic styles from other countries or artists.

CULTURAL HERITAGE

The essence of cartoons transcend entertainment , education , or advocacy. They reflect the cultures of the artists' community and share the history of the era in which those art works were done. For instance, a cartoon from every country usually portrays or document some of the following: style of dressing, types of food, architectural styles and urbanization, values, mood of political landscape, special event events.

This app therefore gives its users the opportunity to learn and share in the cultures of other countries through cartoons.

COLLABORATION

- Cartoonists can share their works with the world through this platform and get feed-backs from their fans.
- Cartoon lovers can share the works of other cartoonists with friends on other social media through email, drop-box, g-plus and others.
- Cartoonists can network with each other, their fans and even find mentors through this medium.
