Content Structure of app:
1. Welcome page
2. List of cultural heritage Places
3. Photos
4. Video tours
5. Basic information of each place
6. Links to online articles
7. Map with markers of cultural heritage places nearby
8. Information menu

I will use features like Maps, Video tour, Information Menu, Links to related online webpages from this app. The main thing I liked from this app is simplicity as my target users will be elder people so I will have to design simpler and familier.
