Describe the content structure of the app: (example:) ♣ Welcome ♣ Map ♣ Service ♣ Contact ♣ Etc

There are some Picture of different view of this object but it does not consist of the Swipe-right/left feature.

The application displays the location of object in static Map and user is not able to get direction to the point.

Another feature that provided by this App is showing the user one video from YouTube in order to present different sight of the Dom.

Some buttons are designed for GoogleSearch, GameMenu and TodayNews function. But GoogleSearch button is not working and also TodayNews button just connects to the Korean Web news.

Opinion: Which features would you use in your prototype App for Weimarpedia, and why?

1. Using more pictures to present different view of the object to motivate peoples
2. Paying attention to size of icons or buttons for the convenience of the clicking
3. Using GPS, Audio or Video to explain some Historical events
