Mask with X which features you can find in the app

Map	Map GPS	Map Static	AR	Photos	Articles	Particip.	P. Review	P. Rating	P. Upload	Share	Audio	Video	Nearby	Links	Tours	(?)
X	X	X		X	X									X	X	

Describe the content structure of the app:

it is mainly consisted of five parts: welcome page, map, sites, service and transportation. The center of the app is the map, because every step will lead the user back to the map. From the sites(Sehenwerte), first, there will be a short description of the place and a photo with information like opening hours and ticket price.

Opinion: Which features would you use in your prototype App for *Weimarpedia*, and why?

We will mainly focus on four features: Map, Participation, Personal upload and share.
The reasons are that our target group are tennagers between 13 to 16. Their main interest, in our opinions, will be sharing with friends on the social media platform adn the interaction with the app itself.Therfore, Interaction and sharing will be the main two points that we would like to emphasize on.
