# Leave Your Mark App

## *Leave Your Mark App*

# Agenda

### **1. Inspirations**

Banksy and ninjas and tigers and bicycles

### **2. Cultural Aspect — Street Art**

Do not call it graffiti, its post structural urban symbolism

### **3. Concept & User Journey**

Johnny told us no sketches but here are a few

### **4. Design**

Photoshop magic

### **5. Technical Aspects**

Well, there are problems

### **6. Manage & Monetize**

I'm studying media management

## Cultural Aspect — Street Art

**The term „Street Art“ itself was (in 2004, starting on [www.woostercollective.com](http://www.woostercollective.com)) controversially discussed within the community of artists but has since been coined by media coverage in magazines and the internet and is now the primarily used term.**

**Other proposals by artists:** Urban Art, Post-graffiti, Urban Expressionism, Post Structural Urban Symbolism, Neo Graffiti, Urban Take Overs.

**Wikipedia:** „Street art is art, specifically visual art, developed in public spaces — that is, „in the streets“ — though the term usually refers to unsanctioned art, as opposed to government sponsored initiatives.“

**Logan Hicks, January 07, 2004**

*„Urban art best describes this movement. The art signifies this movement is influenced and primarily lives within the city environment [...]. The people, the mediums, surfaces and showcases that exist within this movement are all born from the city streets.“<sup>1</sup>*

**Onema , January 09, 2004**

*„Post-graffiti‘ isn’t the best term to use, or any title with ,graffiti‘ in it, simply because I think a lot of people [...] have generated an idea that graffiti is just something that messes up their ,pretty‘ architecture. [...] Urban art is simple and easily understandable to those who don’t do art, while still maintaining an idea of creativity and intelligence, not just ,vandalism‘.“<sup>2</sup>*

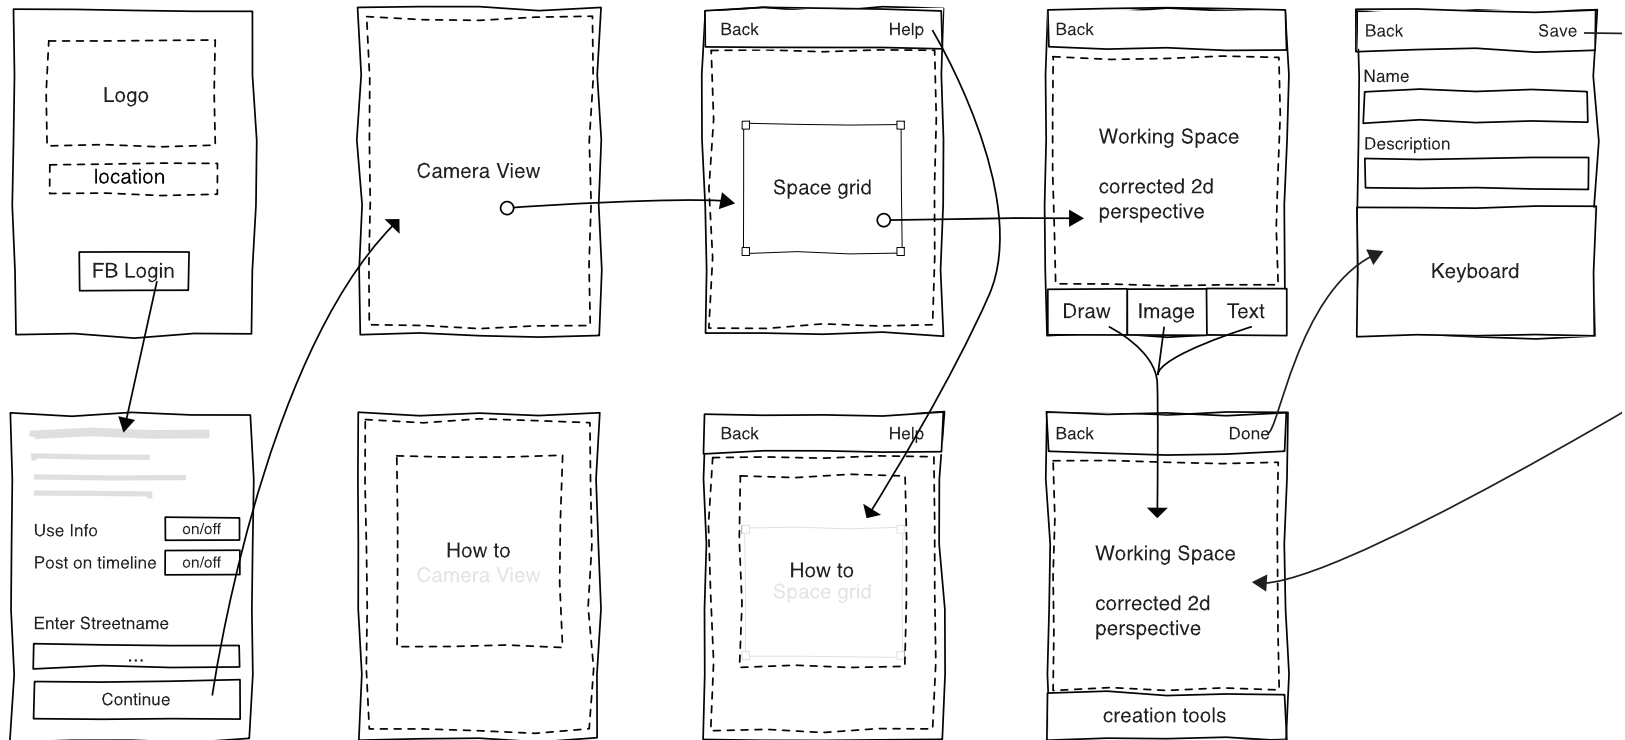

**Eko, January 13, 2004**

*„One of the reasons why I don’t like using the word ,Street Art‘ is that most of the work that we call Street Art is simply not art. It is only graphic design, illustrations etc. To make a character or a pictogram on a paper and put it in the street doesn’t make you an artist. You also need to know and explain why you do that.“<sup>3</sup>*

<sup>1</sup> Logan Hicks, January 07, 2004 on „What The Hell Do We Call This Thing?“, [www.woostercollective.com](http://www.woostercollective.com) — <sup>2</sup> Onema, January 09, 2004 on „What The Hell Do We Call This Thing?“, [www.woostercollective.com](http://www.woostercollective.com) — <sup>3</sup> Eko, January 13, 2004 on [www.ekosystem.org](http://www.ekosystem.org)

# Leave Your Mark App

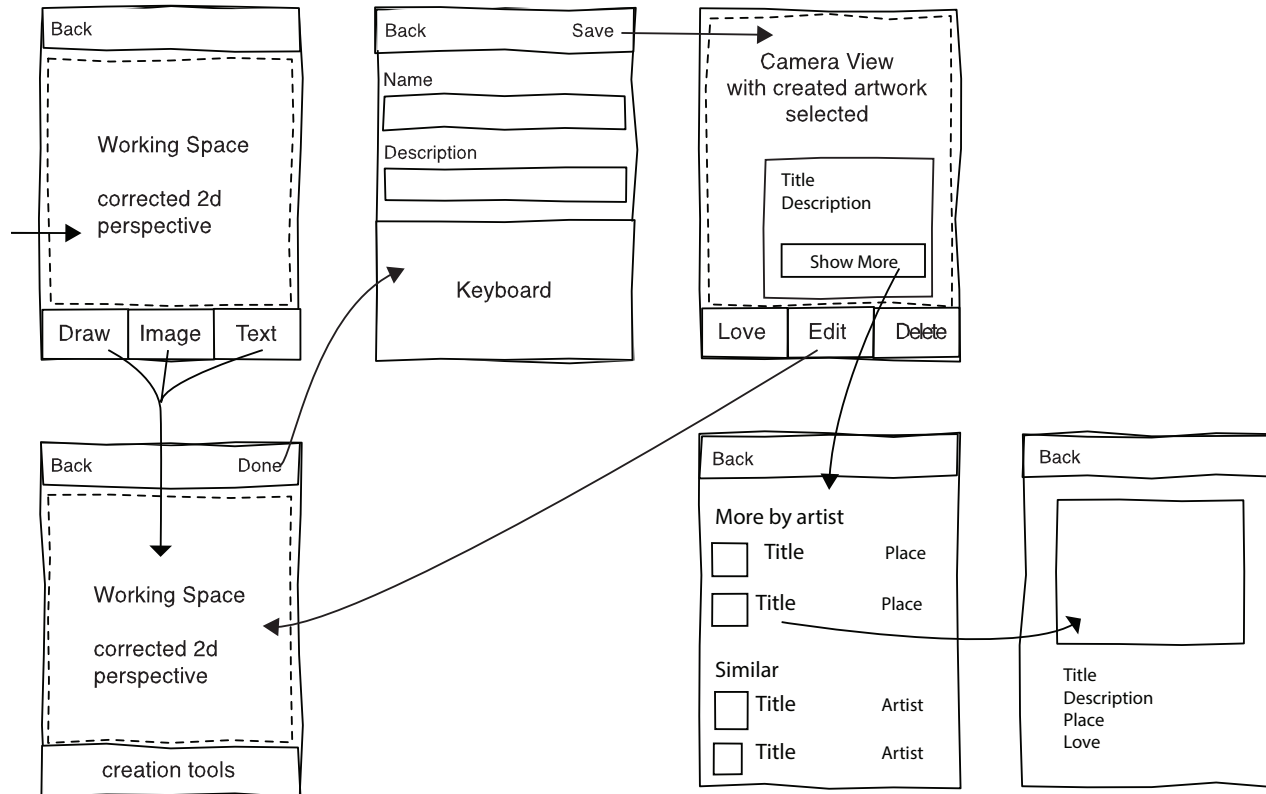

## User Journey

# Leave Your Mark App

## User Journey

# *Leave Your Mark App*

## Design

### Legend

GPS      - - - - - ●

Tap      ————— ●

Double-tap      ○ ————— ●

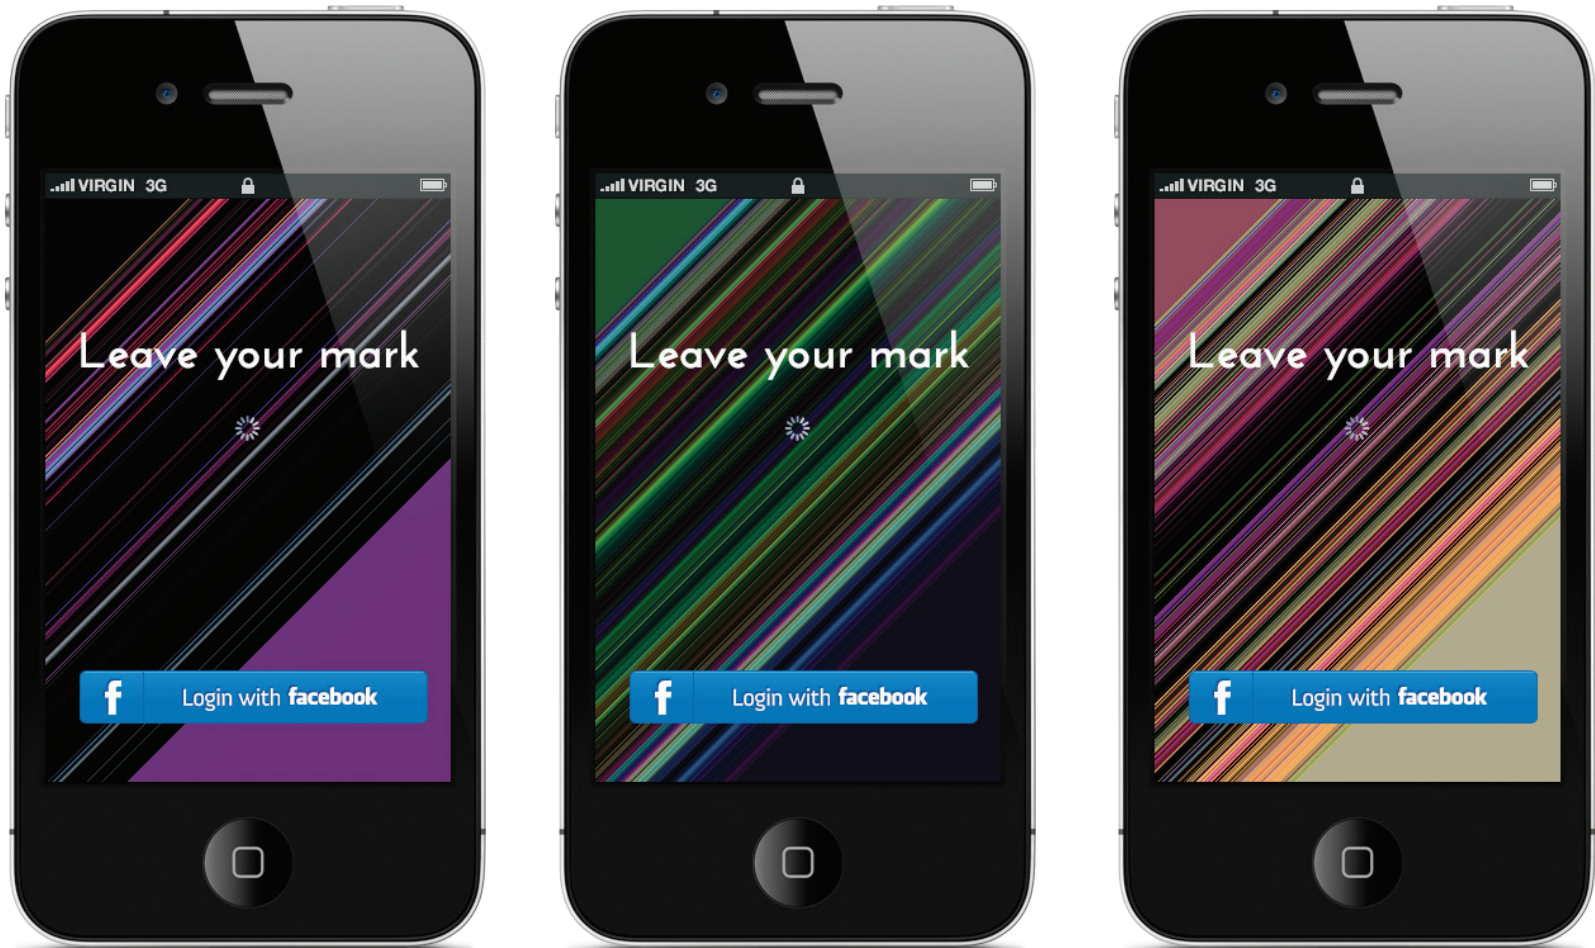

*Background colors are generated randomly to illustrate the countless way to add color to your city and express your opinion in the urban space.*

*Whenever the app is launched background is different.*

# *Leave Your Mark App*

## Design

# *Leave Your Mark App*

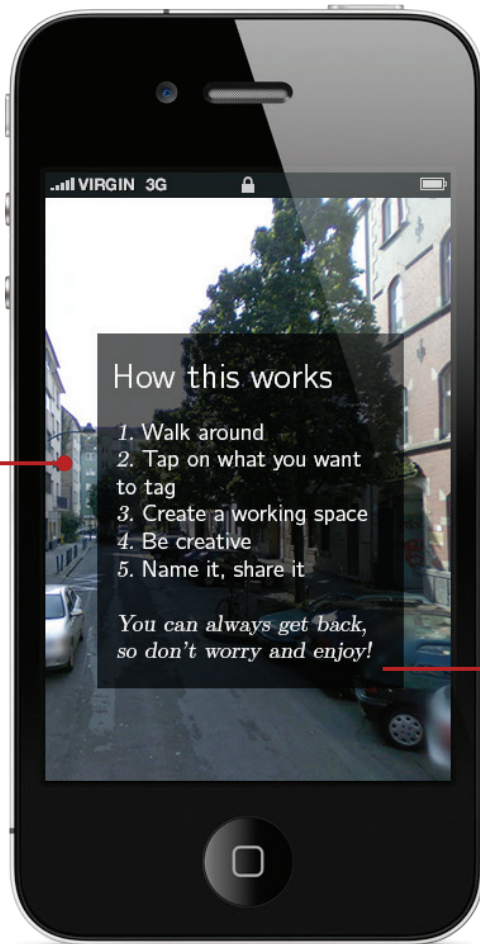

## Design

● Not Shown  
*Login authorization and various options*

\* *sharing options*  
\* *street name*

# Leave Your Mark App Design

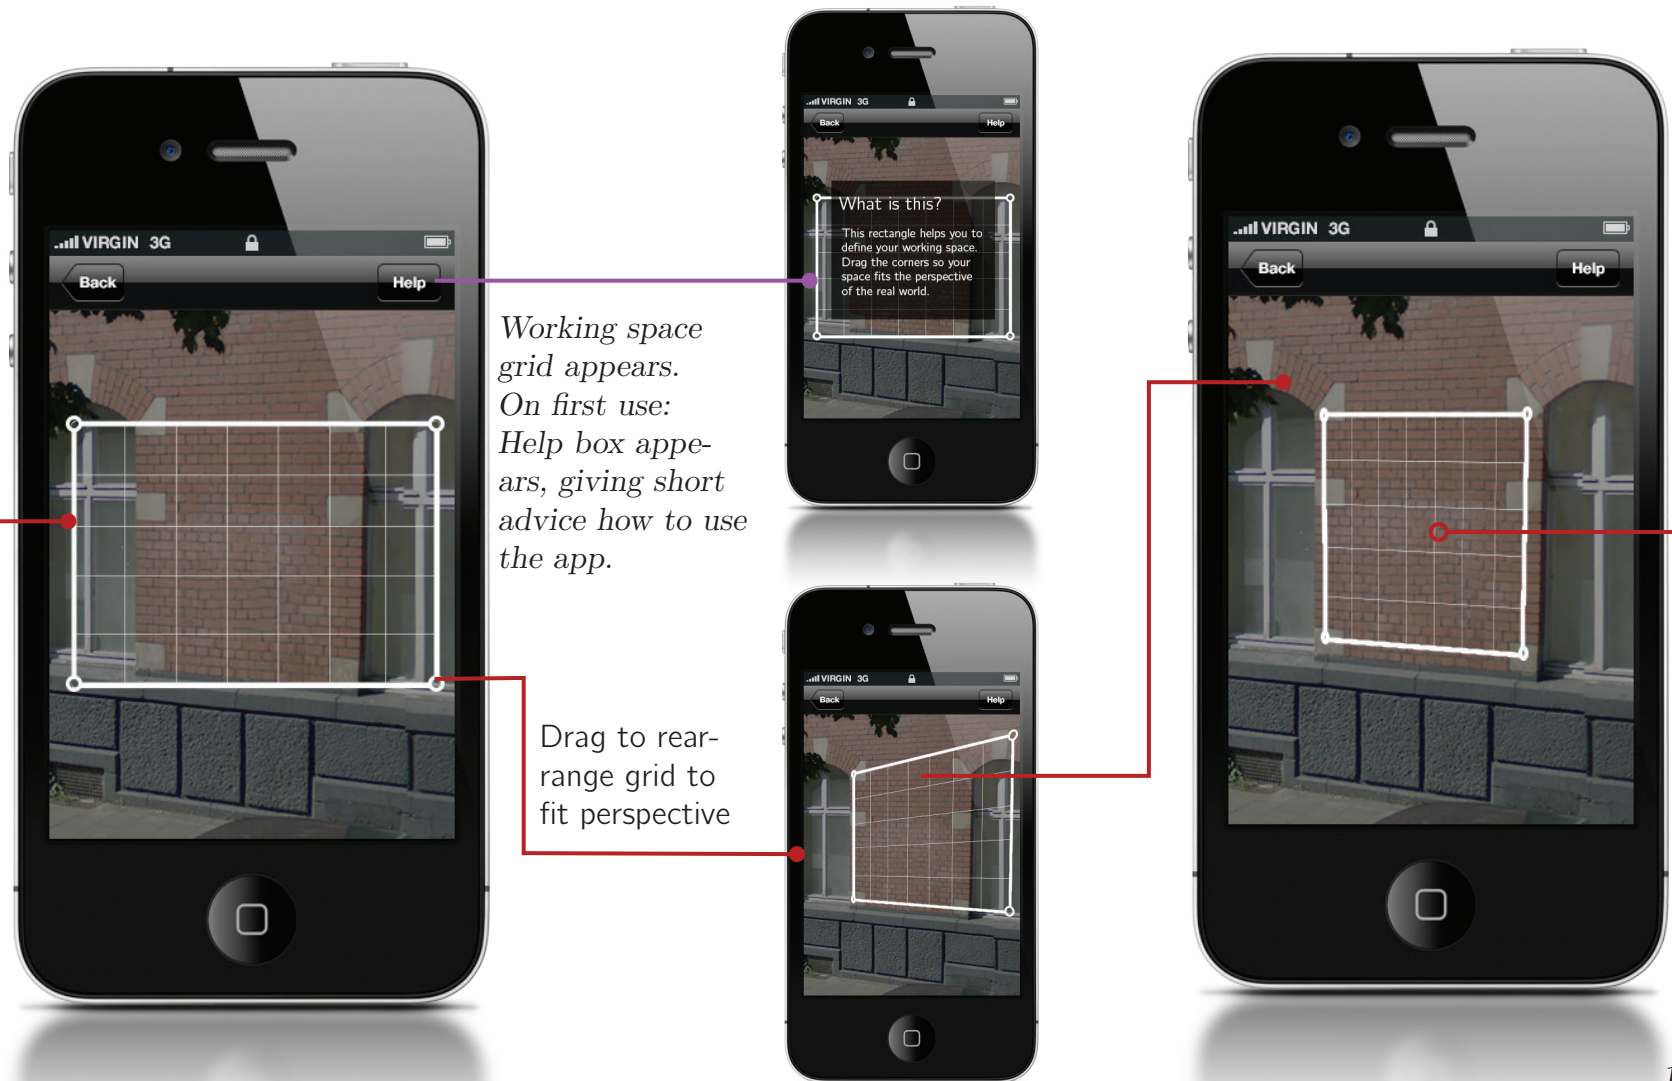

*On first use:  
Help box ap-  
pears, giving  
short advice  
how to use the  
app.*

User finds sui-  
table spot

# Leave Your Mark App Design

# Leave Your Mark App Design

*Camera image is now perspectivley corrected to be flat and ready to be edited.*

*User can choose different tools:*

- \* drawing*
- \* image*
- \* text*

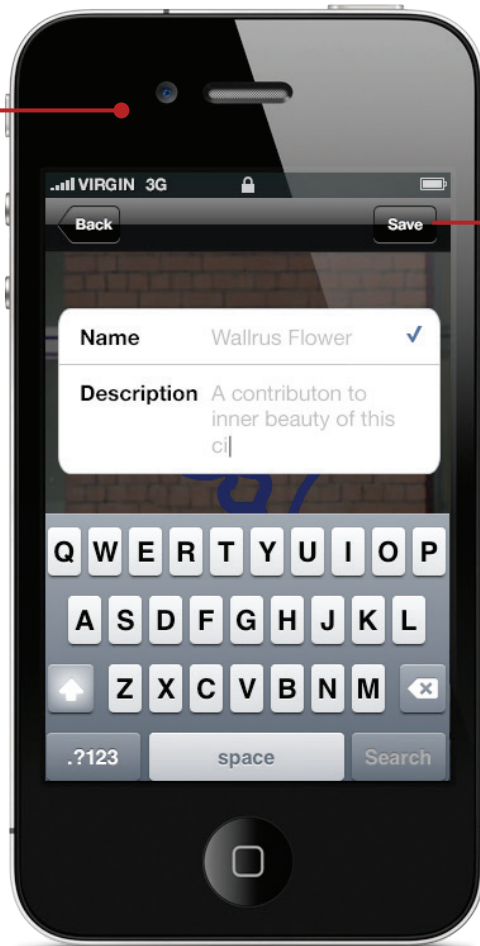

*Users can paint with on the space. Zooming is possible with pinching gesture.*

*Various options are available for drawing:*

- \* erase*
- \* color*
- \* thickness*

# Leave Your Mark App Design

*Name and De-  
scription can be  
entered.*

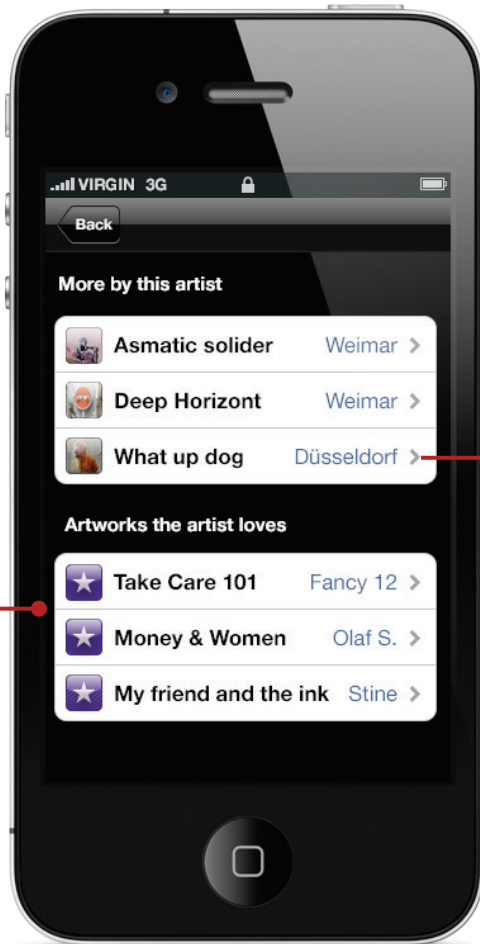

*Live camera view with  
implemented artwork.*

*The artwork is selec-  
ted, therefore the  
infobox is shown,  
with button to show  
more artworks by this  
artist.*

*Not shown  
Increases love  
status.*

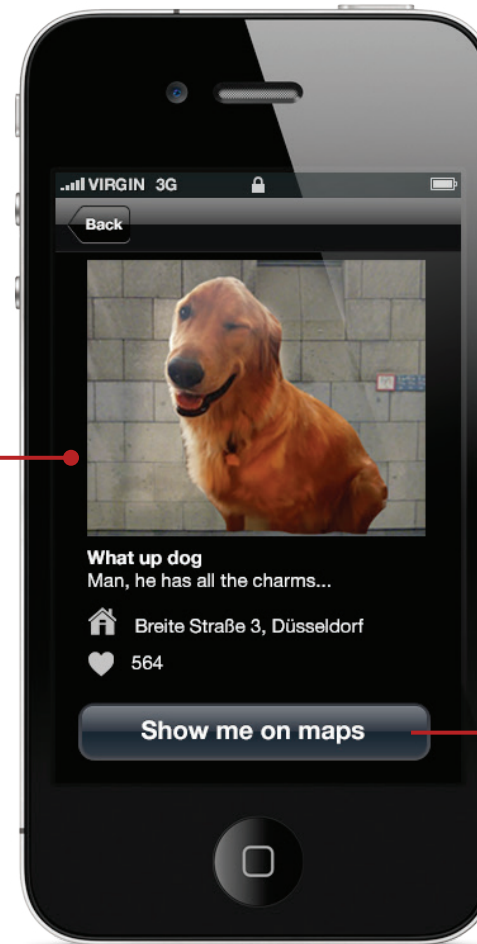

*Not shown  
Deletes artwork,  
if the seleteced  
one is yours*

# Leave Your Mark App Design

*Lists all the artwork created by this artist.*

*Plus, all the artworks the artist „loves“ by other artists*

*Gives image of artwork, title, description, place and love stats.*

**Not shown**  
*Launches maps and marks place of artwork.*

## *Leave Your Mark App*

# Technical Aspects

### **Problem:** Localization of artwork

GPS location of phone is known, but for correct display of artwork in augmented reality, gps location of artwork is needed.

Distance, height and width is unknown.

So, artworks can not be correctly displayed on walls or other structures.

## *Leave Your Mark App*

# Technical Aspects

**Solution:** Using focal length, an estimate of the real space width and information of the direction to determine position of artwork.

$$d = \frac{\text{focal length (mm)} * c \text{ (mm)} * \text{image width (pixels)}}{\text{object width (pixels)} * \text{sensor width (pixels)}}$$

With the knowledge of  $d$ , coordinates of locations 2 & 3 can be at least estimated.

**Consequence:** Space width has to be guessed by the user.

# *Leave Your Mark App*

## Technical Aspects

*In the working space grid screen, a slider has to be implemented.*

*The user has to estimate the width of the real space.*

*The slider can be moved and the distance is shown to right.*

*Of course the help text is adapted, too.*

*Leave Your Mark App*

## Manage & Monetize

### **Manage**

Strong integration with facebook. Facebook app to manage, share artworks and community building. Mobile app is for discovering, not for directions or to function as a catalog.

Artworks are not permantly. Depending on love status, they are alive longer or shorter.

iOS devices only, because hardware is powerful enough and specs are known.

### **Monetize**

Fee for premium urban spaces, e.g. central station, boulevards, popular places.

Additional creative tools and items, like stencils, brushes, patterns, colors which have to be bought.
