# Cultural Heritage

What is Cultural Heritage?

# Cultural Heritage

***Heritage is 'our legacy from the past, what we live with today, and what we pass on to future generations. (...)***

Our cultural and natural heritage are both irreplaceable sources of life and inspiration.

They are our touchstones, our points of reference, our identity.

(World Information Heritage Kit, UNESCO 2008)

# Cultural Heritage

There are, in essence, two aspects of the cultural heritage to be preserved: the **tangible** and the **intangible** elements.

# Cultural Heritage: Tangible

The **tangible** one can be divided in

“Immovable heritage” – being land or land-based resources, such as buildings;

# Cultural Heritage: Tangible

and “Movable heritage”, touchable resources that can be detachable and transported from one place to another, as objects, documents, etc.

# Cultural Heritage: Tangible

- Includes buildings and historic places, monuments, artifacts, etc., which are considered worthy of preservation for the future.
- These include objects significant to the archaeology, architecture, science or technology of a specific culture.

# Cultural Heritage: Intangible

The **intangible** heritage is the non-material elements, such as culture, stories, language, dance, etc.

(Ontario - Ministry of Municipal Affairs and Housing, n.d.).

# Cultural Heritage: Intangible

- Safeguarding **intangible heritage** is the protection of cultural identities and therefore the cultural diversity of humankind.
- It has become one of the priorities of UNESCO in the cultural domain.

[www.unesco.org](http://www.unesco.org)

(Cantoni, 2015)

# Cultural Heritage: Intangible

- The intangible cultural heritage is transmitted from generation to generation, and is constantly recreated by communities and groups, in response to their environment, their interaction with nature, and their history. It provides people with a sense of identity and continuity, and promotes respect for cultural diversity and human creativity.

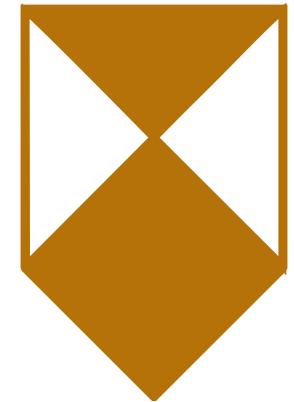

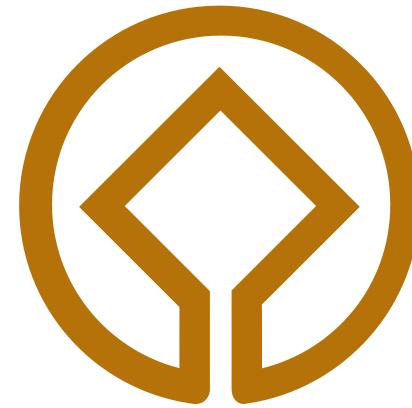

# Cultural Heritage: Intangible

The Convention for the Safeguarding of the Intangible Cultural Heritage defines the intangible cultural heritage as

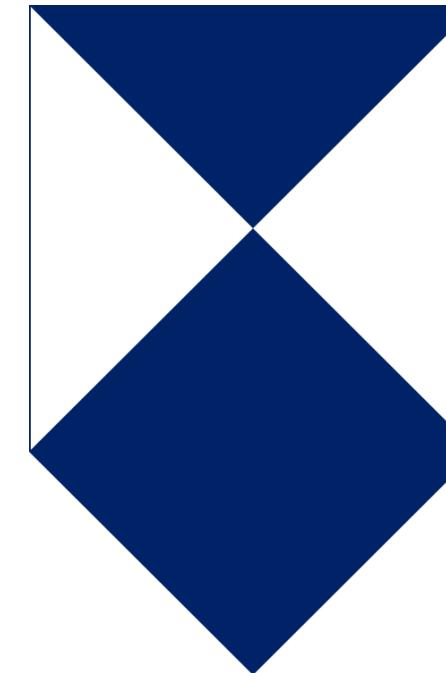

- *'the practices, representations, expressions, as well as the knowledge and skills (including instruments, objects, artefacts, cultural spaces), that communities, groups and, in some cases, individuals recognise as part of their cultural heritage.'*

# Cultural Heritage Organizations

SAL

# Cultural Heritage: Organizations

# Cultural Heritage: Organizations

- *"The Blue Shield is the cultural equivalent of the Red Cross. It is the protective emblem specified in the 1954 Hague Convention (Convention for the Protection of Cultural Property in the Event of Armed Conflict) for marking cultural sites to give them protection from attack in the event of armed conflict. The Blue Shield network consists of organizations dealing with museums, archives, audiovisual supports, libraries, as well as monuments and sites".*

## The Convention (UNESCO 1972)

Section 1 – article 1: definition of **cultural** heritage:

- Monuments
- Groups of buildings
- Sites

Section 1 – article 2: definition of **natural** heritage:

- Natural features
- Geological and physiographical formations
- Natural sites

# UNESCO World Heritage Sites

*"UNESCO seeks to encourage the identification, protection and preservation of cultural and natural heritage around the world considered to be of outstanding value to humanity. This is embodied in an international treaty called the Convention concerning the Protection of the World Cultural and Natural Heritage, adopted by UNESCO in 1972."*

(“UNESCO World Heritage Centre - World Heritage,” n.d.)

# UNESCO World Heritage Sites

- A **World Heritage Site (WHS)** is a place (such as a building, city, complex, desert, forest, island, lake, monument, or mountain) that is **listed** by the United Nations Educational, Scientific and Cultural Organization (**UNESCO**) as being of special **cultural or physical significance**.
- The list is maintained by the international World Heritage Programme administered by the **UNESCO World Heritage Committee**.

# UNESCO World Heritage Sites

- The programme **catalogues, names, and conserves** sites of outstanding **cultural or natural** importance to the common heritage of humanity.
- The 'World Heritage Convention' (UNESCO, Paris 1972) major objective is the *identification, protection and preservation* of **cultural** and **natural** heritage around the world considered to be of '**Outstanding Universal Value**' (OUV) to humanity.

# UNESCO World Heritage Sites

- The World Heritage List now includes 1,031 natural and cultural wonders that are considered to be places of "outstanding universal value (OUV)" composed of:
  - [802](#) Cultural sites,
  - [197](#) Natural, and
  - [32](#) Mixed cultural and Natural

# Cultural Heritage & Tourism

# Cultural Heritage & Tourism

World Heritage properties are important travel destinations, that if managed properly, have great potential impact for local economic development and long-term sustainability.

The new World Heritage and Sustainable Tourism Programme, 2011

# Cultural Heritage & Tourism

## **Conservation, preservation and transmission**

of World Heritage properties is fully served by tourism.

World Heritage and tourism stakeholders *share responsibility* for conservation of our common cultural and natural heritage of **Outstanding Universal Value** (OUV) and for sustainable development through appropriate tourism management.

*UNWTO 6° annual conference on Silk Road Tourism - 2013*

# Cultural Heritage & Tourism

A two-way relationship between tourism and World heritage sites exists:

- A: The WHS as tourist destinations**
- B: The Tourism perspective**

# Cultural Heritage & Tourism

## A: The WHS as tourist destinations

The inscription of a property into the World Heritage List serves as a recognition of

- its outstanding universal value (OUV),
- its integrity and
- the need to protect and manage it.

# Cultural Heritage & Tourism

As provided in the Budapest WHC Declaration on World Heritage (2002), the key strategic objectives of World Heritage conservation known as **the 'Four Cs'**:

- 1) Strengthen **credibility** of the world heritage list;
- 2) Ensure effective **conservation** of world heritage properties;
- 3) Promote the development of effective **capacity-building** measures;
- 4) Increase public awareness and support through **communication**.

In 2007, World Heritage Committee added a 'fifth C':

- 5) **Community:** relates the four Cs together

# Cultural Heritage & Tourism

- The **World Heritage name is well recognised worldwide** and often attracts attention from tourism players including tour operators, tourism developers and tourists themselves.
- The uniqueness, authenticity, exceptionality and universal value of the recognition of a WHS thus **have become a source of competitiveness** for the destination which hosts it, providing a strong destination promotional and differentiation tool and a recognizable brand.

# Cultural Heritage & Tourism

- World Heritage Sites have been noted as being **amongst the most popular and heavily promoted attractions** in a variety of countries.
- On the side of visitors, this gives them the expectation that visiting the site will be a unique **experience**.
- World Heritage Listing thus almost always results in an **increase in tourism**. This increase provides opportunities to
  - tell the story of World Heritage properties more widely,
  - to garner **public support** for and appreciation of the values domestically and internationally, and
  - to augment the amount of **funding** and assistance available for the **protection** and **conservation** of the property.

# Cultural Heritage & Tourism

- **World Heritage properties** are therefore **important travel destinations**, that if managed properly, have great **potential impact** for local **economic development** and long-term **sustainability**.

# Cultural Heritage & Tourism

## B: The Tourism perspective

- While protection and conservation are a fundamental responsibility within the World Heritage Convention, so also it is the equivalent responsibility for the significance of the place to be transmitted to the visiting public and through other media to the wider community.

# Cultural Heritage & Tourism

- Tourism is intimately linked to **preservation, presentation** and **transmission** of World Heritage properties:
  - The stories which are told to visitors will profoundly influence their attitude to the property, and their appreciation of its OUV.
  - The development of a sympathetic and locally sustaining tourism sector can contribute strongly to the ongoing protection of a site and the provision of benefits for its immediate stakeholders.
  - An ongoing robust and successful tourism operation, fundamentally aligned to the values of the site and their conservation, will ensure their **transmission**.

# Cultural Heritage & Tourism

- The tourism sector thus plays a **fundamental** role in not only the preservation of the WHS, but also in its **enhancement** and communication.

**However, tourism at World Heritage sites has implications for all aspects of protection of World Heritage properties.**

- The **impacts of visitation** are created irrespective of whether those visiting sites are local, national or international, independent travellers or part of a group.
- This calls for an **integrated approach** to tourism and **preservation** of WHS.

# Cultural Heritage & Tourism

Developing Sustainable WHS-Based Tourism:  
the **UNESCO World Heritage and Sustainable Tourism  
Programme (WH+ST)**

In 2001, UNESCO World Heritage Centre established  
a **Tourism Programme**, with the specific objective to address  
*"growing threats on World Heritage Sites from tourism"*.

# Cultural Heritage & Tourism

## Mission of WH+ST programme:

Facilitate the management and development of sustainable tourism at World Heritage properties through **fostering increased awareness, capacity and balanced participation of all stakeholders** in order to protect the properties and their Outstanding Universal Value whilst ensuring that tourism delivers benefits for conservation of the properties' sustainable development for local communities as well as a quality experience for visitors.

# ICT (information and communication technologies) and Sustainable Heritage Tourism

## ICT enables heritage sites

- To manage relationship with customers

# ICT and Sustainable Heritage Tourism

TECHNOLOGY	SITUATION	CONSERVATION	EDUCATION	SITE MANAGEMENT
TICKETING AND RESERVATION SYSTEMS	Walk-ins	Monitor attendance levels to prevent possible damage to site	For internal use to get closer to the customer	Avoids overcrowding
	Advanced booking	Avoid site overcrowding and possible damage to site as restrictions are applied	Visitors learn booking in advance guarantees a visit at time specified and avoids queuing	Sites can prepare for groups/events in advance
WEB SITE	Site awarness	Educes visitors about conservation issues and increases awareness as to what to do to reduce impact	Websites can be used before, during and after the visit to supplement knowledge	Generates realistic visitor expectations as well as reduce the needs giving orientation and other information at the time of visit
	Information provision	Opportunity to present conservation message	Allow museum visitors to access the information they choose according to market segments	Reduces staff's time answering the publics' questions
	Inventory awarness	Fragile artefact need not be displayed. A digital image can be used instead	Showcase entire inventory range and interrelate with relevant context, artefacts, sites, stories	Site managers restrict access to fragile areas and artefacts
	Virtual tours	Restrict public from fragile areas. Improve understanding of conservation issues	Virtual tours provide 'edutainment' that is entertainment and education combined	Addresses accessibility issues and provides better capacity management
MOBILE MULTIMEDIA GUIDE	Augmented reality	Shows the effect of the environment/visitors	Visitors can compare what was once on the site to what there is today	Ensures every visitor sees the same reconstruction

# Cultural Heritage & Mobile

The relation between Mobile & Cultural Heritage: Nowadays in order **to enjoy a historical and cultural experience**, it is not mandatory to visit a museum or to buy a guide to check the information about the monuments and historical buildings in a city.

Despite the importance of these institutions and options, **the technology allows** the expansion of the concept one step further, and **the cities itself can be considered open air museums.**

# Cultural Heritage & Mobile

The spread and importance of mobile devices on every-day activities is well known, but its use for cultural preservation doesn't grow in the same speed.

The tangible and intangible elements of cultural heritage can be explored on two ways: from the heritage-source (as a museum) to the user, and from the user providing content for the heritage-source.

# Cultural Heritage & Mobile

If in one hand the **technology** can bring the **world** in a small scale of a mobile **screen** by enhancing the museums and galleries possibilities, in other hand the **portable technology** can add elements to the real **world**, changing the perception and turning the entire city into an open-air museum. There are **no more limitations** about space, neither about the opening hours to provide to the visitors a complete and empowered cultural experience.

# Cultural Heritage & Mobile

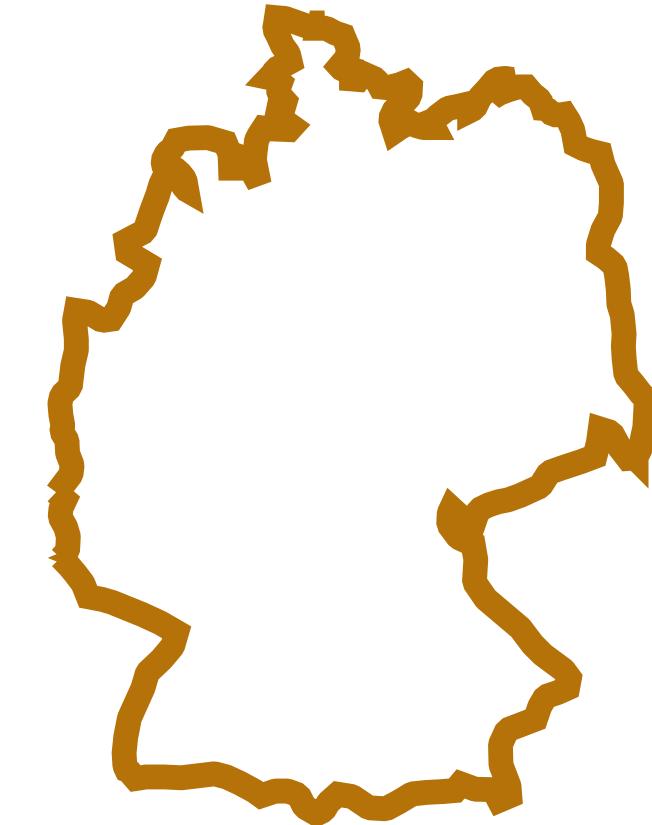

Apps are one way to deal with cultural heritage and context-aware mobile content, applying features as: maps, routes, information, gallery, tickets, directions, etc.

## **Herderstätten (Stadt-Kirche St. Peter und Paul, Herders Wohnhaus und Altes Gymnasium Weimar) / City Church, Herder House and Old High School:**

A three-aisled hall church with five bays and a pentagonal chancel and a west tower surmounted by an octagonal spire, containing an altar triptych by Lucas Cranach the Elder. The three-storey Herder House was built in the mid-16th century on the foundations of an earlier Renaissance structure. The Old High School, commissioned by Duke Wilhelm Ernst, was built in simple Baroque style.

*„Between 1919 and 1933, the Bauhaus School, based first in Weimar and then in Dessau, revolutionized architectural and aesthetic concepts and practices. The buildings put up and decorated by the school's professors (Walter Gropius, Hannes Meyer, Laszlo Moholy-Nagy and Wassily Kandinsky) launched the Modern Movement, which shaped much of the architecture of the 20th century.“*

## **Hauptgebäude der Bauhaus-Universität / Main Building Bauhaus University:**

Designed by Henry van de Velde, this is one of the most important art school buildings from the turn of the century and is the place where the Bauhaus was founded in 1919. Of course, the terms 'Weimar' and 'Bauhaus' went on to become milestones in the history of modern architecture. The building is still used today by various faculties of the university.

## Materialen / Materials for teachers:

The image shows a digital teaching resource for teachers. It features a portrait of Herzog Carl August (1757–1828) on the left, with the word "HERZOG" written vertically above it. Below the portrait is the caption "Herzog Carl August (1757–1828)". On the right, there is a large call-to-action area with a portrait of a young man's face at the top. The text in this area is as follows:

Ihr seid die Interessengruppe HERZOG!

Während sich die anderen Gruppen auf das Rollenspiel vorbereiten, entwickelt ihr einen Fünf-Punkte-Rettungsplan für euer Land!

Stellt euren Masterplan (Rettungsplan) vor und beginnt mit den Wörtern: „Mein Plan ist...“

**Hinweise für den Rettungsplan:**  
Überlege, mit welchen Mitteln du es als HERZOG erreichen kannst, dass sich die verschiedenen Bevölkerungsschichten stärker mit dem Herzogtum Sachsen-Weimar-Eisenach identifizieren können!  
Was könntest du in der Rolle des HERZOGEN tun, damit die Menschen (egal aus welchem Stand) gern in deinem Herzogtum leben?

**Hinweise für das Rollenspiel:**  
Wenn du den HERZOGEN darstellst, solltest du hauptsächlich kosteneffiziente oder kostenfürstige Forderungen annehmen! Überlege bei im Spiel, aus welchen Forderungen du Kapital erzielen kannst.  
Handle gewinnbringend für dich und dein Land!

## Home Task: Quantitative Evaluation

Quantitative Evaluation of a WHS App in Germany, based on the list:

[http://www.uni-weimar.de/medien/wiki/IFD:MobileMediaDesign-SS16#Apps\\_for\\_World\\_Heritage\\_Sites\\_in\\_Germany](http://www.uni-weimar.de/medien/wiki/IFD:MobileMediaDesign-SS16#Apps_for_World_Heritage_Sites_in_Germany)

The quantitative evaluation will help to analyze the existing apps in order to see what can be traced as trend on features, for WHS Apps in Germany.

The mapping of available features helps to have an overview about how the mobile market behaves for cultural content, and what are the popular features to apply in your prototype.
