Content Structure:
- Splash Screen
  - Language Selection
    - Main Menu
      - Outdoor tour of the building
        - Map
          - GPS, Favorite Marker, Building Markers
        - List of Audio Guides
          - Photo, Audio Player, Share, Transcript
      - The bauhaus collection
        - About the bauhaus collection
          - About Exhibition
            - Photo slideshow with textual description
          - Architecture
            - Photo slideshow with textual description
          - Theatre
            - Photo slideshow with textual description
          - Photography
            - Photo slideshow with textual description
          - Commercial graphics
            - Photo slideshow with textual description
          - Ceramics
            - Photo slideshow with textual description
          - Painting
            - Photo slideshow with textual description
          - Metal workshop
            - Photo slideshow with textual description
          - Furniture
            - Photo slideshow with textual description
          - Sculpture

- Photo slideshow with textual description
  - Textile
    - Photo slideshow with textual description
  - Teaching
    - Photo slideshow with textual description
  - Mural painting
    - Photo slideshow with textual description
- Audio guide for the bauhaus collection
  - List of audio guides with List and Tiled Views along with Transcript, Audio Player and Share button
- Audio guide for kids
  - List of audio guides with List and Tiled Views along with Transcript, Audio Player and Share button
- Special Exhibitions
  - About the special exhibition
    - Textural description with photo
  - Audio guide
  - Retrospect
    - List of events with photos and dates
      - Detail view with "Add to calendar" feature and Share button
- Calendar
  - Interactive calendar listed with upcoming events with search button
    - Detail view of events with "Add to calendar" feature
- Service
- Imprint

Feature I would like to add in my app:
- **Online and offline Map:** To guide the user towards the heritage site. It would be convenient for everyone to have offline access.
- **Tours and calendars:** So that travellers and visitors who wants to plan ahead can create an itinerary.
- **Photos, Audios, Videos, Articles:** As my idea is to create a audio guide app for UNESCO Heritage sites (with Augmented Reality), photos as well as videos and articles could provide extra information and also aesthetic beauty for the interface.
