Name of the App:
Welterbe - Guide to Germany

URL
https://play.google.com/store/apps/details?id=com.everplaces.welterbe

Mask with X which features you can find in the app

Map	Map GPS	Map Static	Links	Photos	Articles	Share	Audio	Video	Nearby		Tours	Games		AR	
X	X	X	X	X	X	X									

Describe the content structure of the app:
➢ Places, List of monuments
    ➢ Article
    ➢ Route
    ➢ Sharing
➢ Route
    ➢ 8 Classification of Monuments (App closes upon click)
➢ Map (Static Map but can redirect to external map apps where GPS is used)
➢ Photos(photos from users)
➢ Links

Opinion: Which features would you use in your prototype App, and why?
I like the feature that incorporates users photos from Instagram, this is not only helpful to other new users of the app to see what it may look like if they travel there but it serves as some sort of self-boost to the app users that they visited these places.
I also like the Short Articles about the places and I think I would incorporate it since it gives users useful information they can easily read and decide if its worth the travel.
