

Windows 7 Parental Control Icon

ORIGINAL	PROPOSAL	COMMENT
 The original icon is a 3D-style illustration. It features a woman with blonde hair in a green jacket, a child with brown hair in an orange shirt, and a computer monitor with a blue screen. A shield with four colored quadrants (red, green, blue, yellow) is positioned in front of the child.	 The proposed icon is a flat, blue graphic. It shows a large adult figure and a smaller child figure standing next to a computer monitor. Below the graphic, the words "PARENTAL CONTROL" are written in a bold, blue, sans-serif font.	<p>The original icon of the operative system Windows 7 has too many elements for example: light effects, shadows, colors and gradients.</p> <p>The proposal pretend to simplify the icon with maximal abstraction of elements thus facilitate a faster way to read the icon.</p> <p>With a single color and just 3 elements: The adult, the kid and the computer</p>
