A nighttime photograph of Regensburg, Bavaria, taken from a bridge over the Danube River. The Regensburg Cathedral, a large Gothic church with a prominent spire, is illuminated and stands out against the dark sky. The city's historic buildings, including a clock tower, are visible along the riverbank. The bridge's cobblestone surface and stone railings are in the foreground, and streetlights cast a warm glow on the scene.

Hello, my friends.
My name is Sir Henry and I had a quite stressful day so far, because one of the stone carver disappeared, but the statue needs to be done by today.

But may I tell you something about the cathedral in Regensburg?
