

Manual

on how to use movement synthesizer

1. copy all patches of the page into a max patcher
2. copy the test txt to a word processor and save it as text test.txt
3. turn on toggle in the player, press read and then select the text file you just saved
4. turn on toggle and main output in the noise generator
5. make sure you turned on audio in the interface itself
6. now you can listen to a sound sample
