## VISUALISATION

why touchdesigner?  
1st thought because good to visualize the data -> but where connection to flower?

pros: aestatically pleasing  
- good to control  
- abstract

cons: lacking in connection to flower & the topic because it is very real  
- beauty of lily flower gets lost

compromise:  
↳ little pieces (cords) of lily flower digitalized for audience to take away

POISON:  
- inner death  
- outer beauty  
association to women in our society  
- beautiful from the outside, when not seen as that -> useless

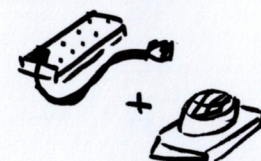

## HISTORY

- Roland der Furzer (Hofnar des König Heinrich II)
- Bernulfurzer

## INSTALLATION

Arduino

Q4-Sensor

Gas

fart (methan)

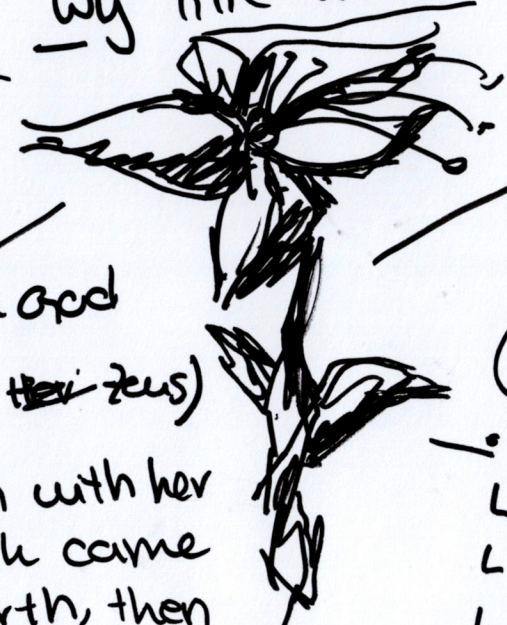

Data visualisation

↳ touchdesigner

in form of a lily flower

why lily flower?

HERA

Myth of greek god  
↳ Hera (wife Zeus)  
fed her son with her breast & milk came down to earth, then lily flowers grew on those places.

historical flowers

Contrast:  
↳ fart = disgusting  
flower = beautiful

stands for:  
↳ beauty  
↳ womanhood  
↳ purity (Reinheit)  
↳ love  
↳ virginity  
(white & pink lilies)
