Let yourself bloom

Let Yourself Bloom is a participatory video installation about personal growth and flourishing. A short video projection encourages viewers to reflect on what makes them bloom.

Visitors can then contribute images and thoughts to a shared digital board via QR code, creating a collective visual garden of personal experiences.

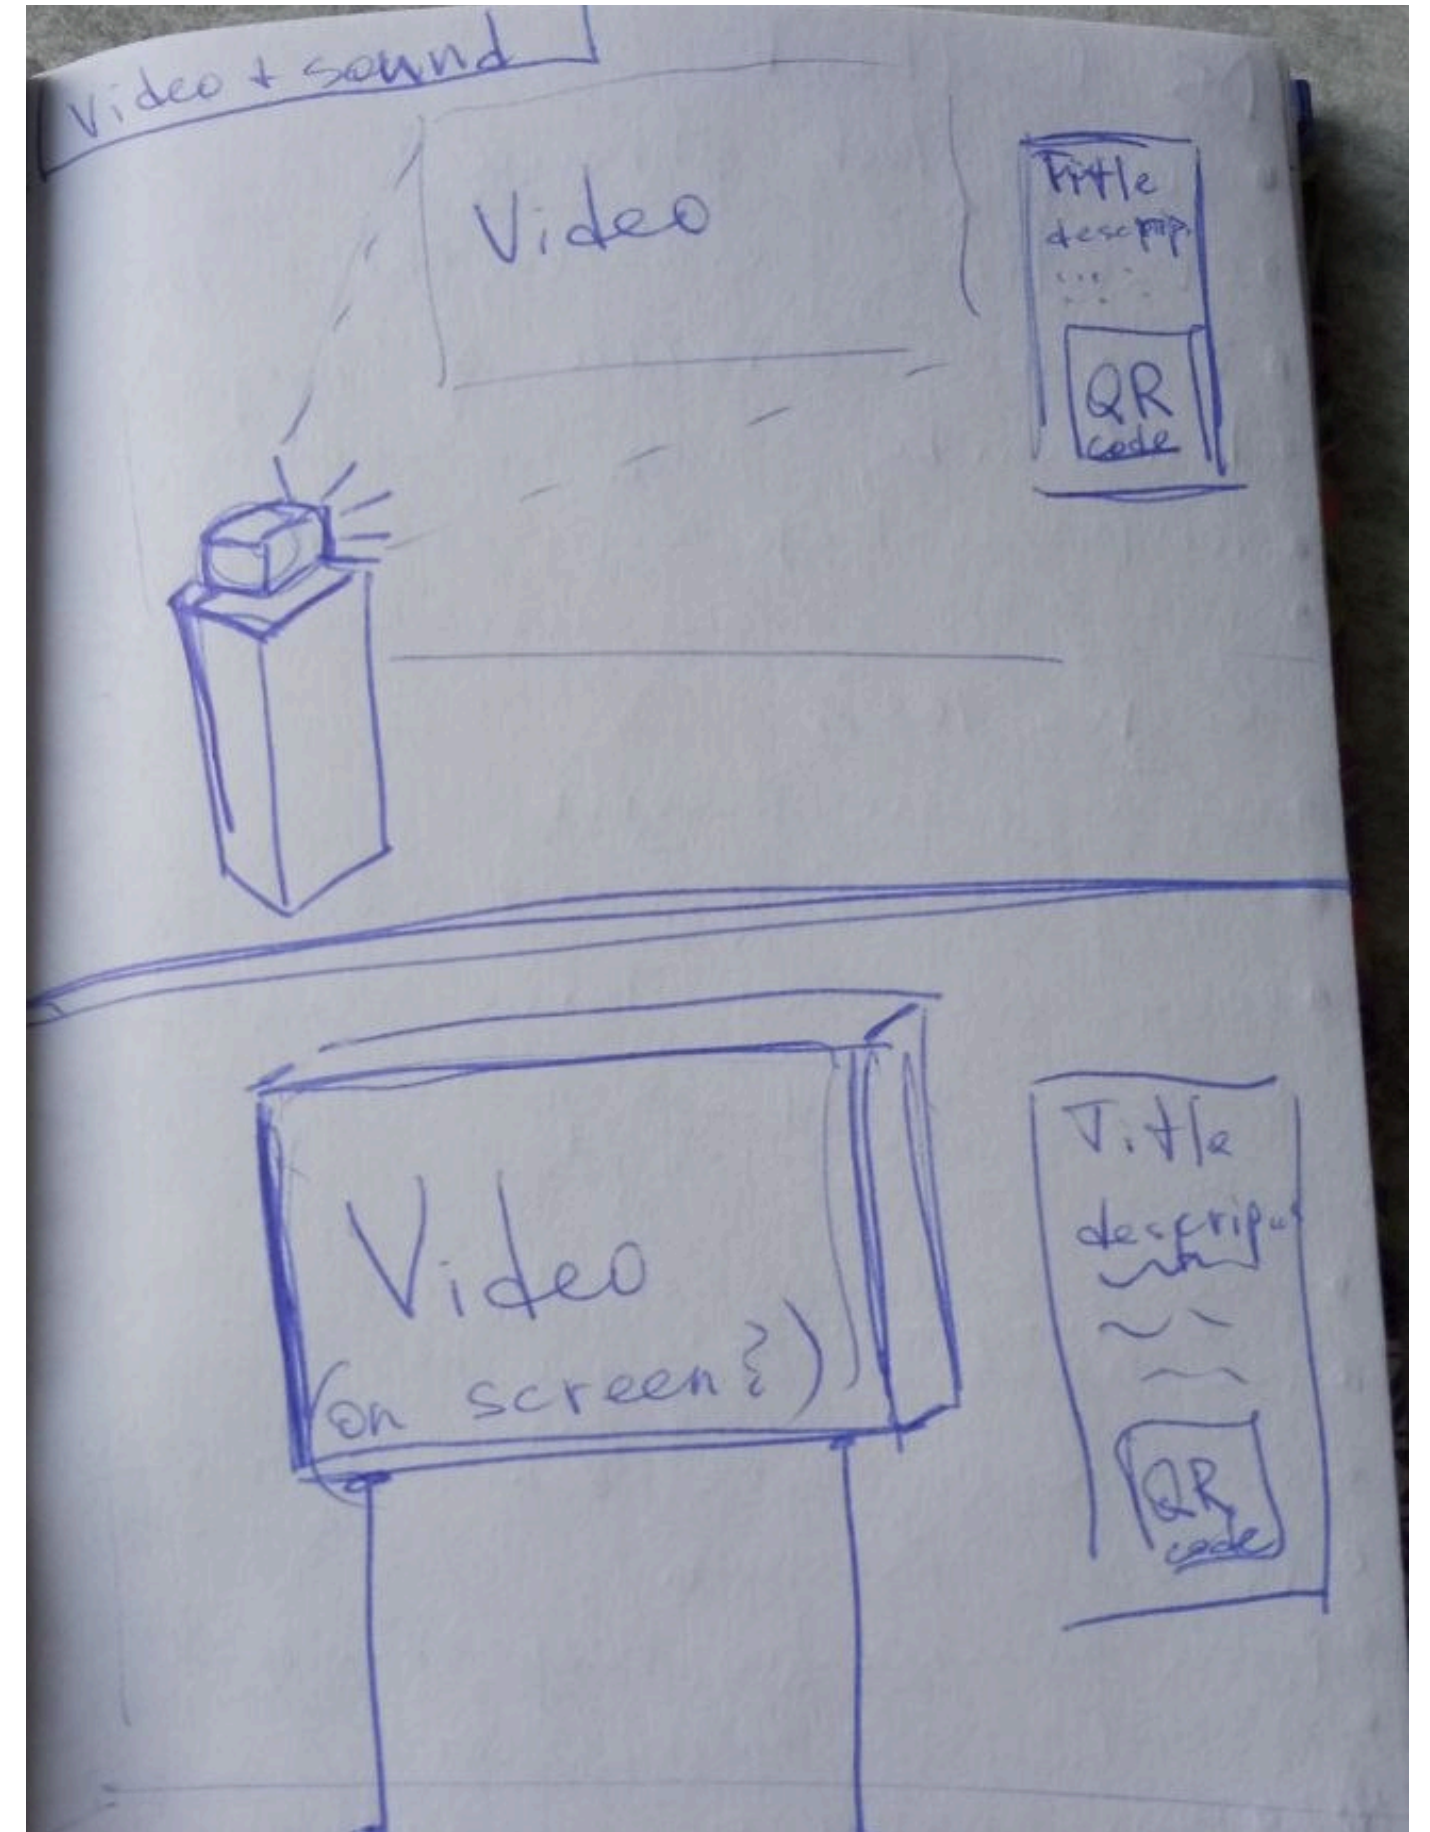

Exhibit space requirements

First option: using projector

- projector
- stand
- speaker? (if projector doesn't have sound)
- place for poster on a wall
- electricity

Second option: using screen (I prefer this one)

- screen
- speaker? (if --- doesn't have sound)
- place for poster on a wall
- electricity

Size of the instalation depends on devices
