

# The Hard Reset

Humans disappear from Earth  
but not really...

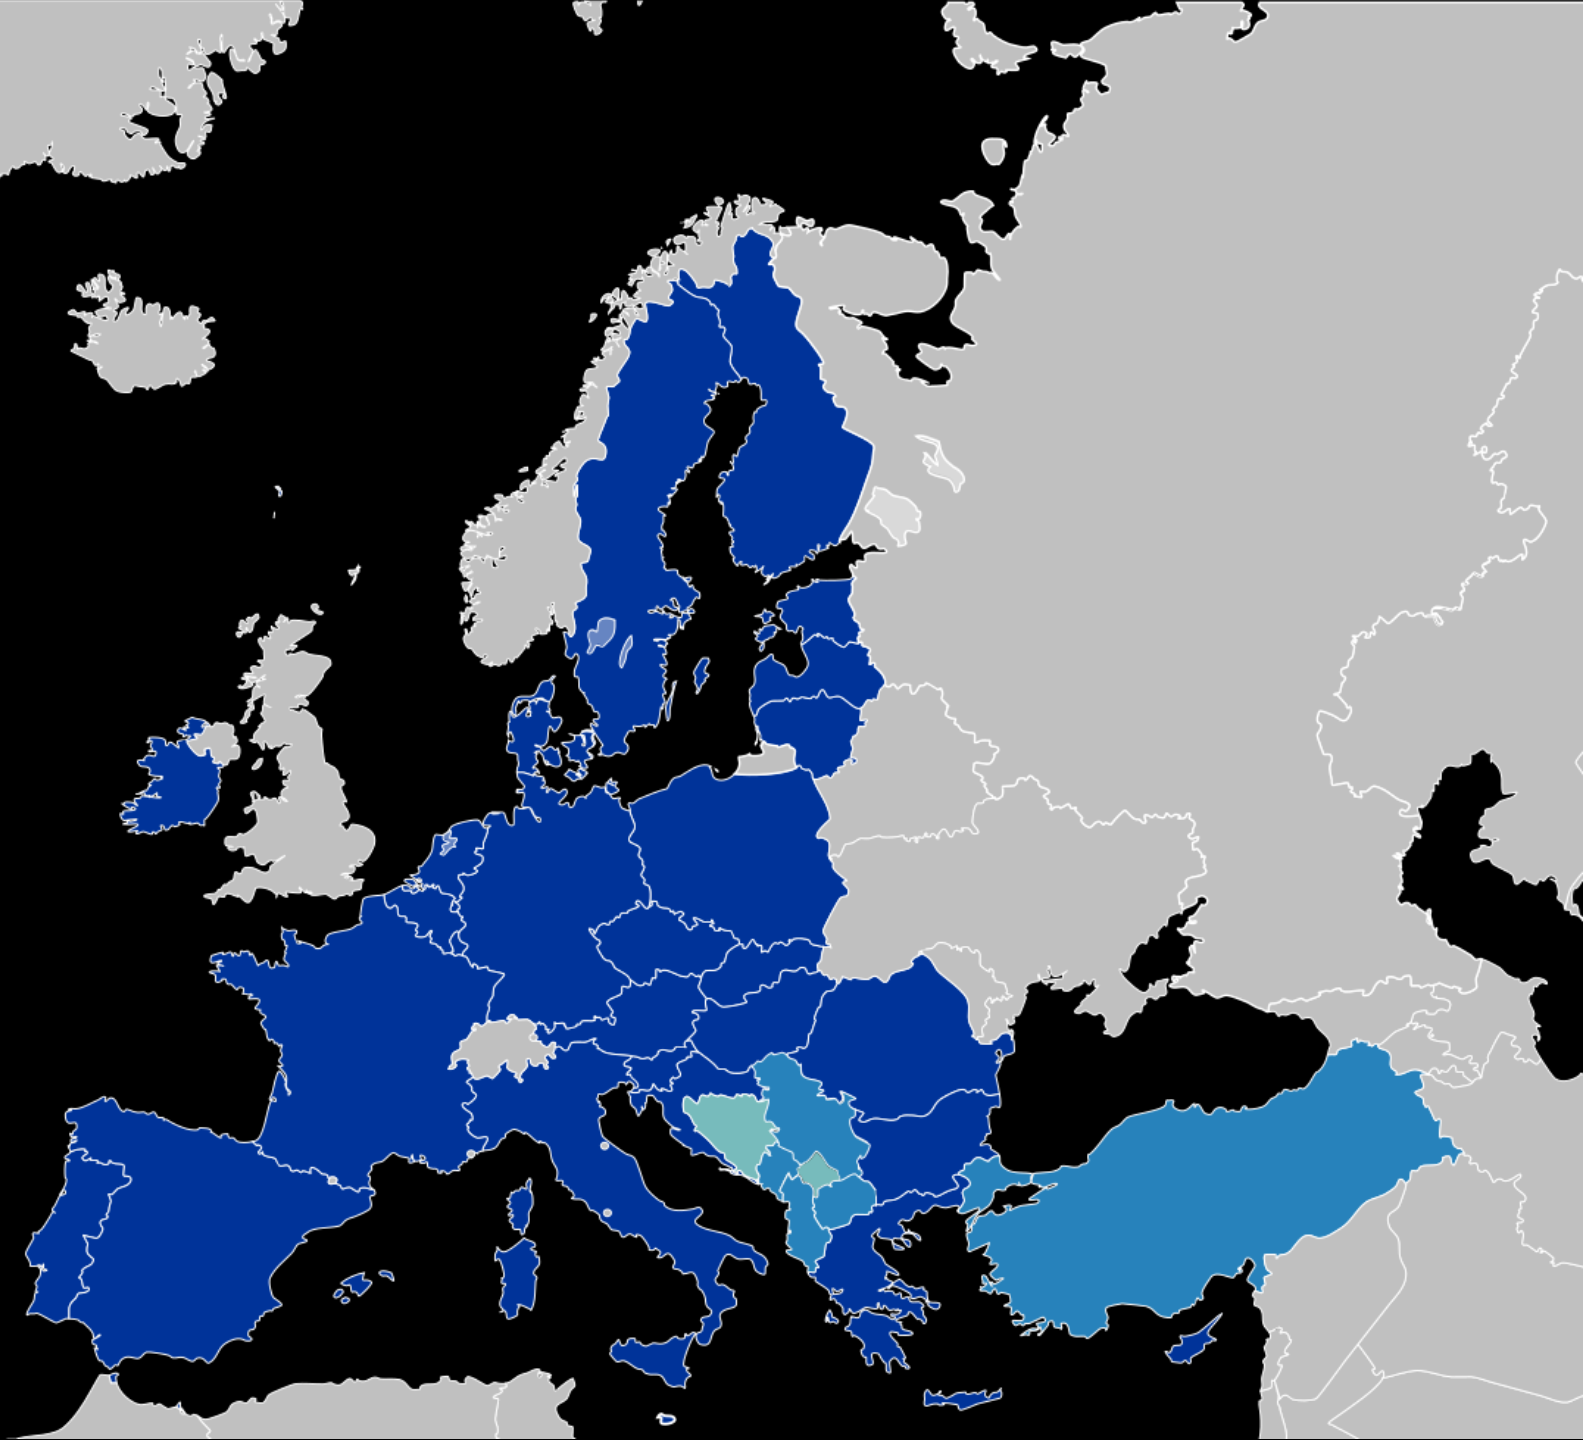

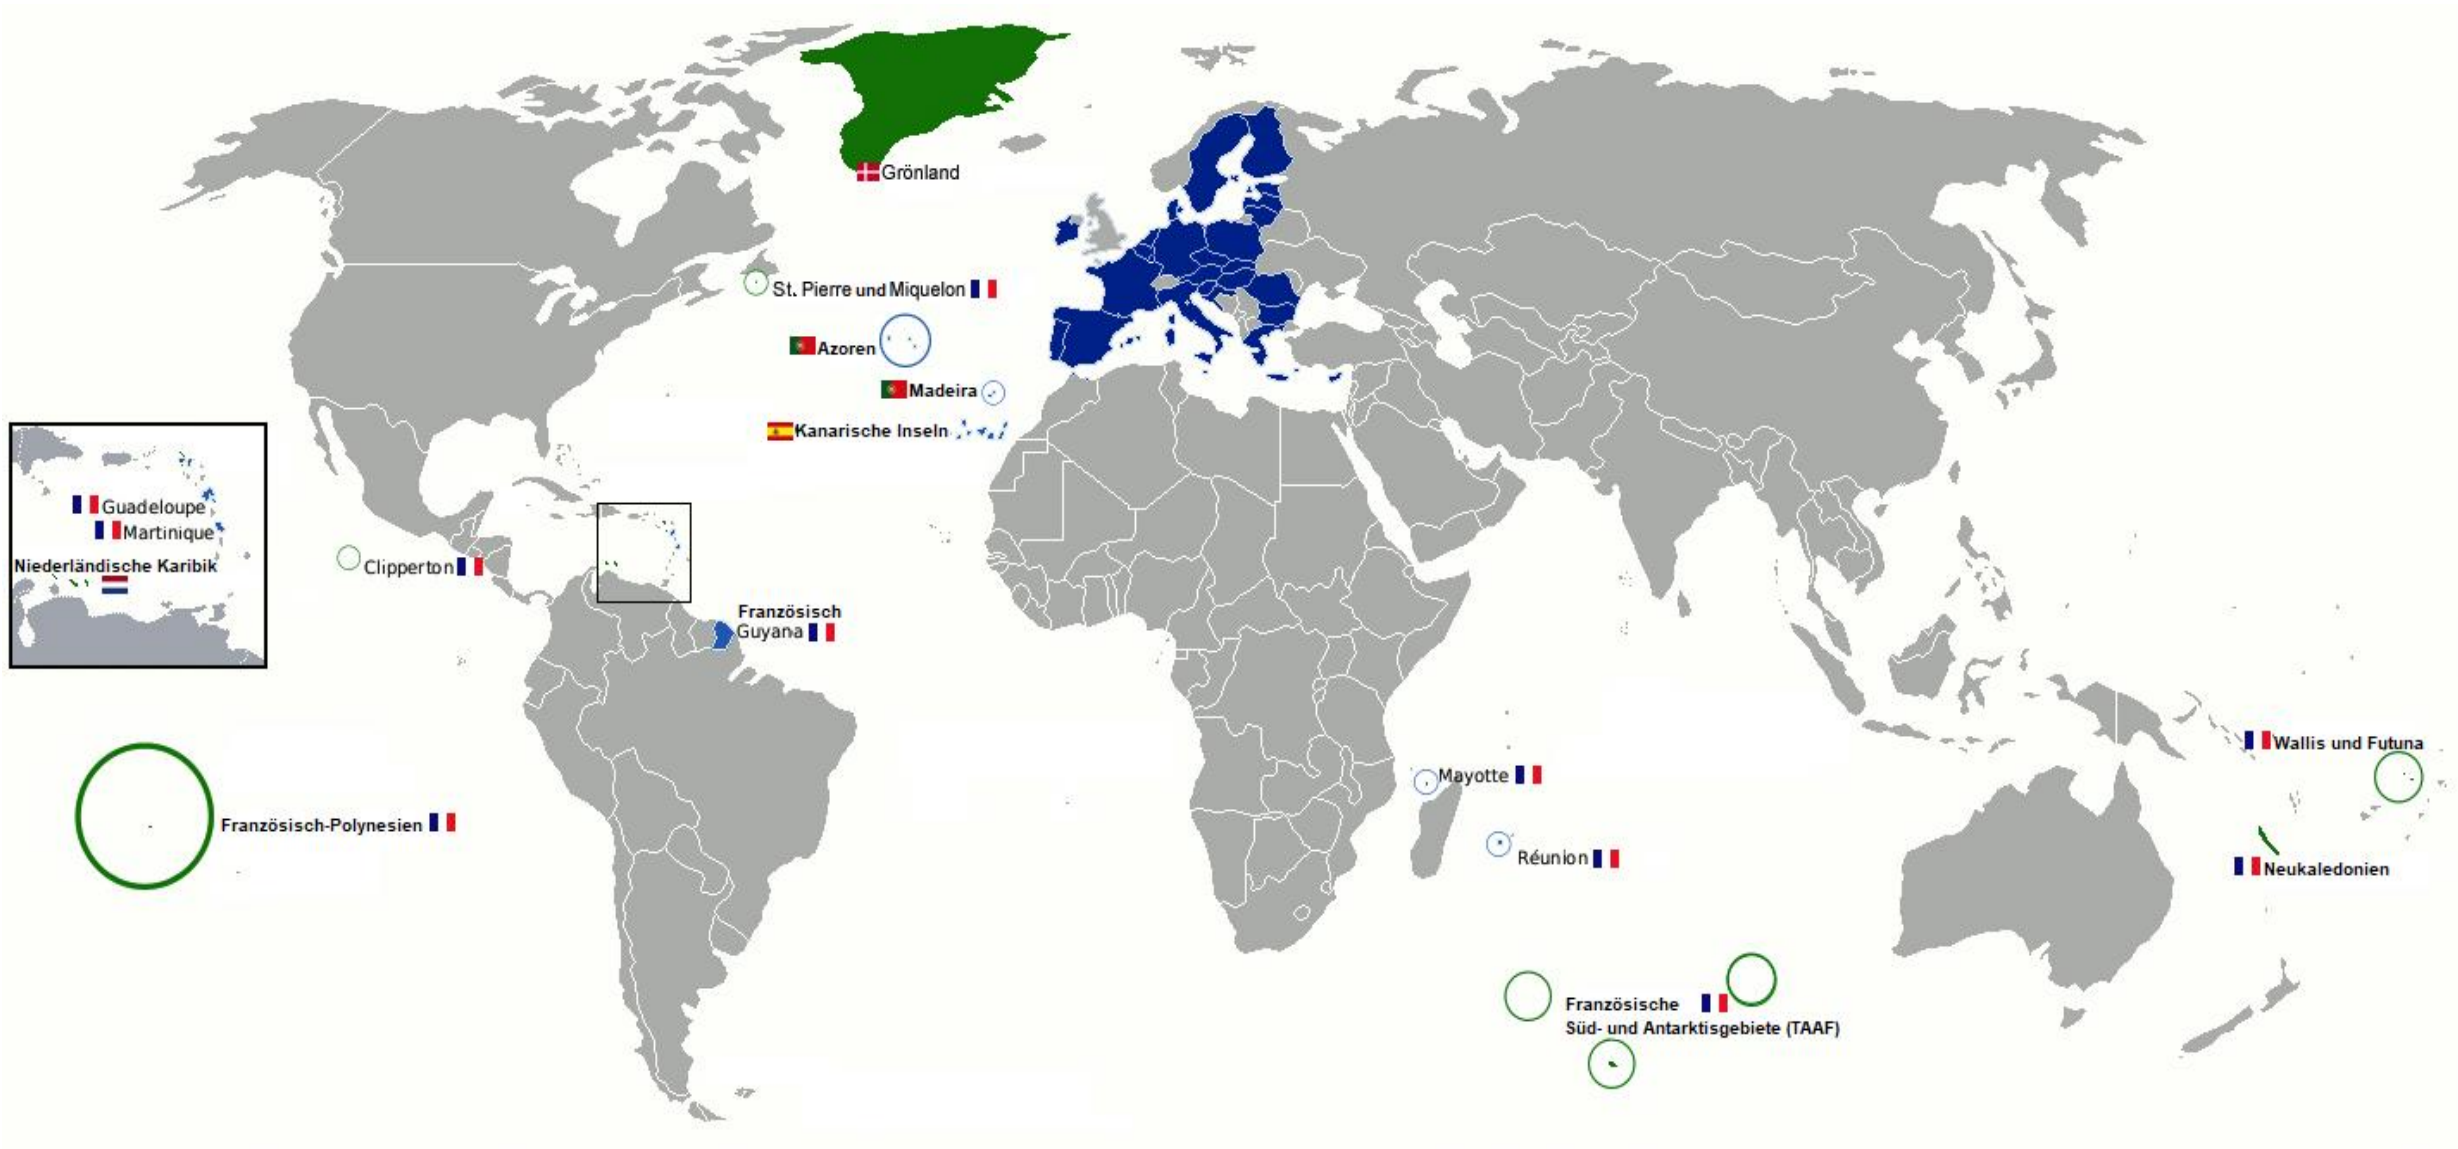

### Base Szenario:

Way into the future, we as humans have mostly exhausted our resources and destroyed our environment.

So a plan is developed by the member states of the EU, to re-establish the earth's nature:

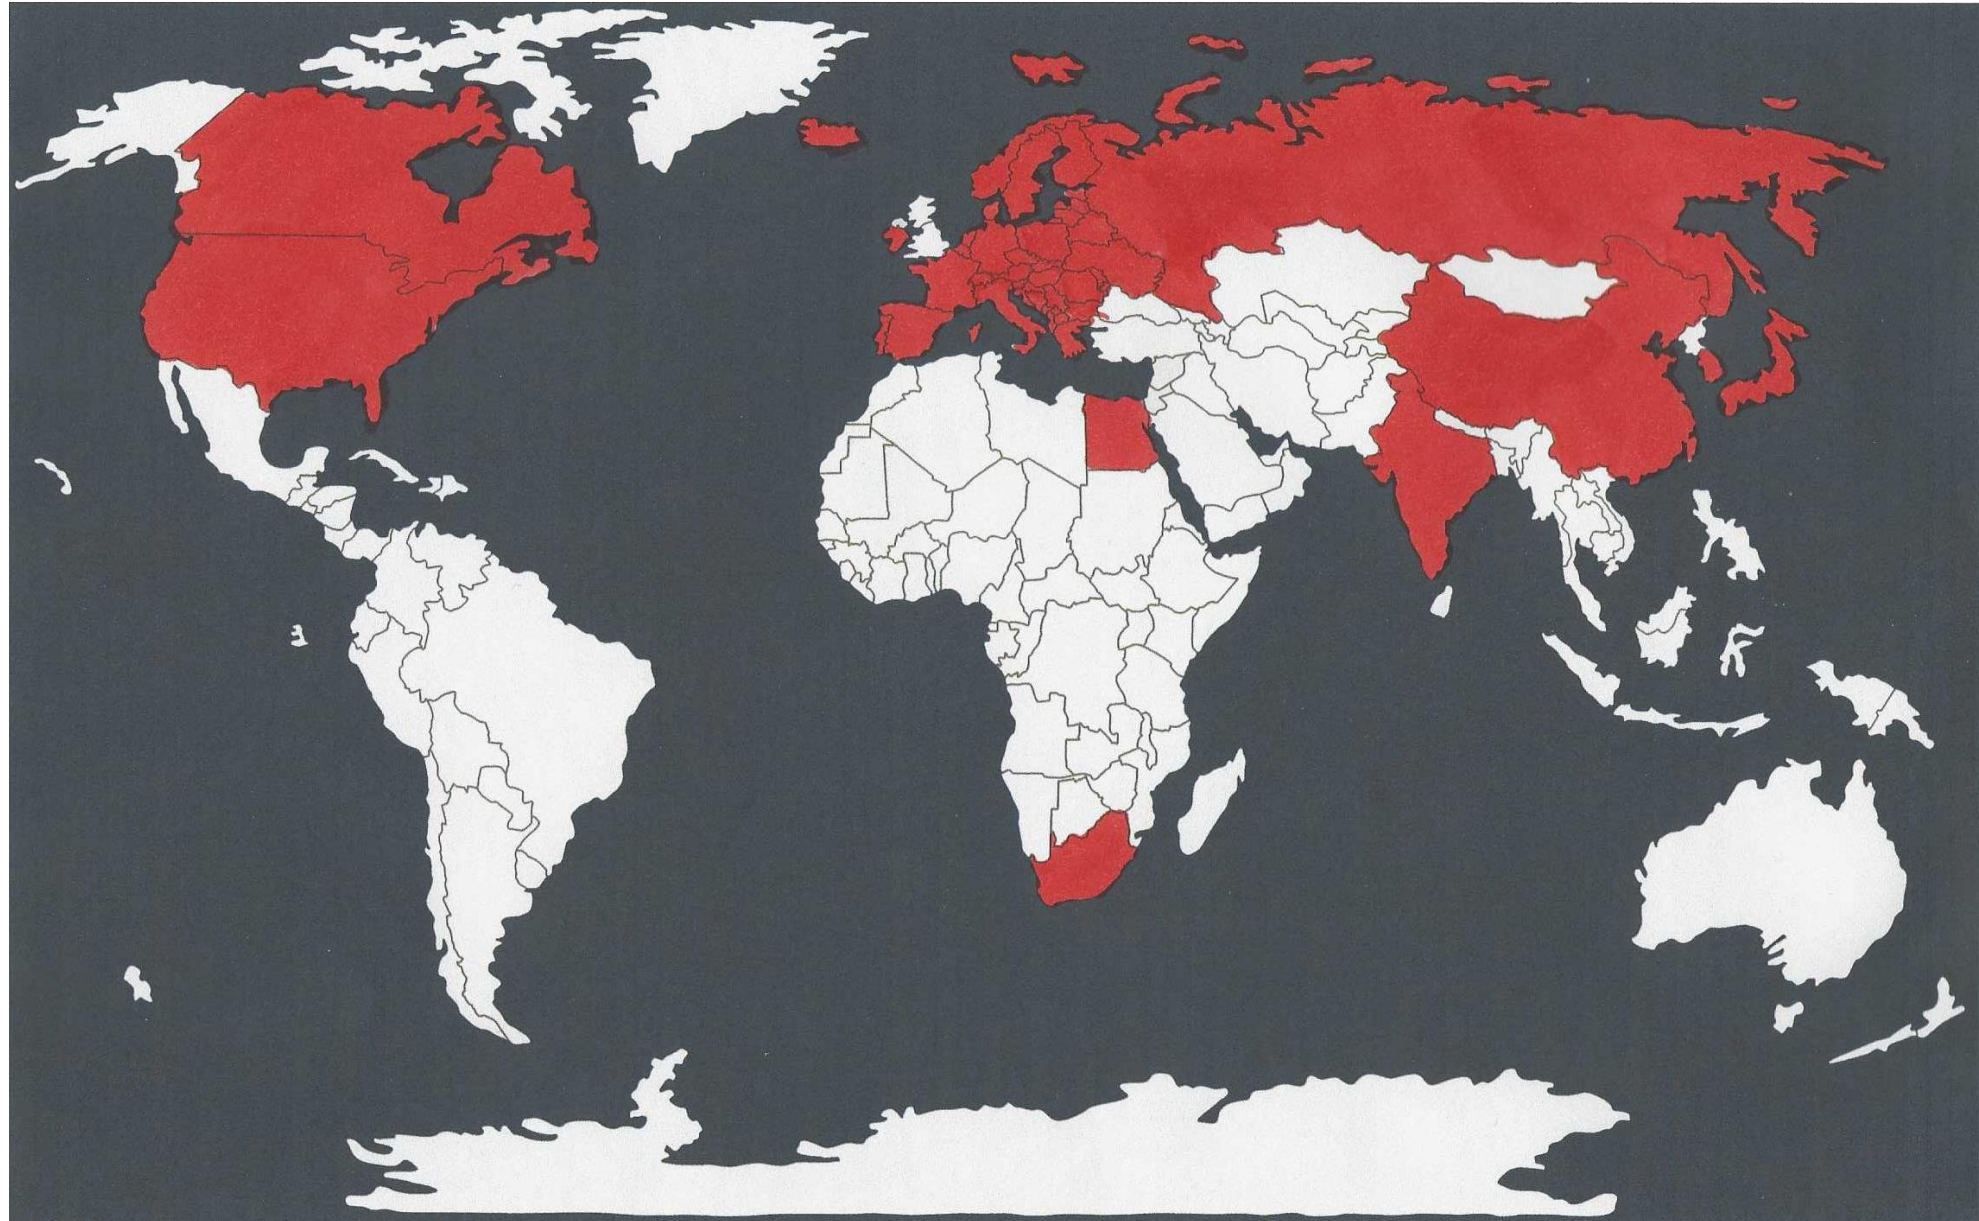

- Create a new union of states (based on the regulations of the European Union and its entry requirements)
- other nations can apply to enter this new union
- nations can decide to exit this new union / not be a part of it
- nations that are a part of it / are accepted are mostly 1st world countries (global north)

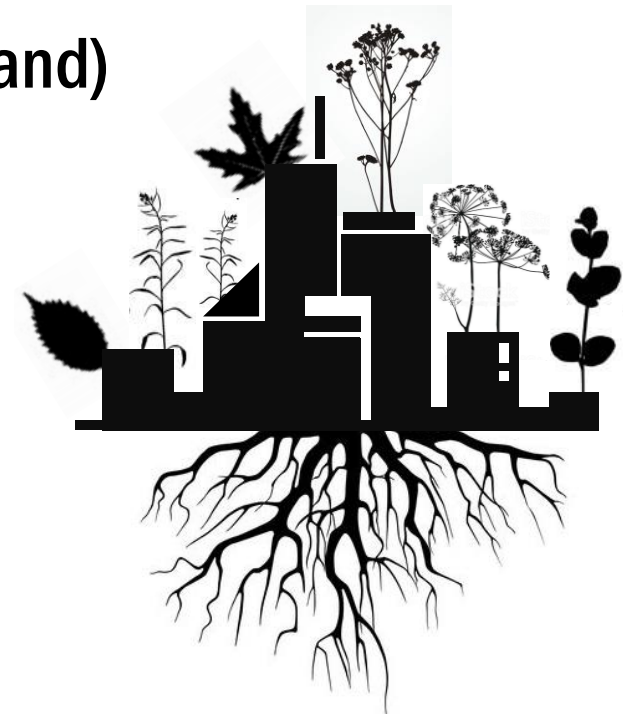

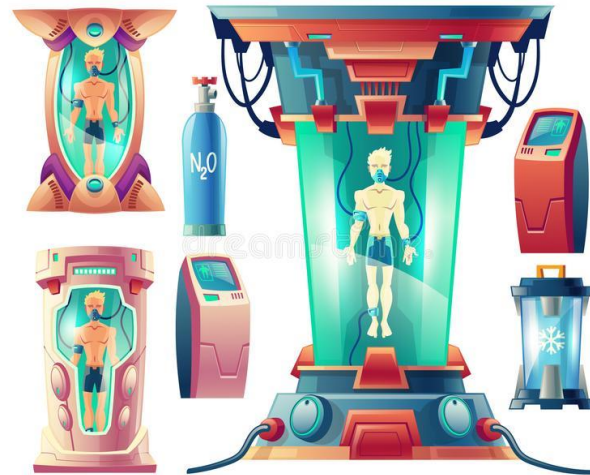

## Countries participating in the „Hard Reset“

- Shut down all of economy, industry and political activity
- Cryofreeze the entire human population, of the participating nations for 100 years
- let earth environment recultivate itself
- create a defense system / border (wall with surveillance and guards) to the not participating states
- prepare a concept (store energy, resources, materials beforehand) for the reconstruction of civilisation

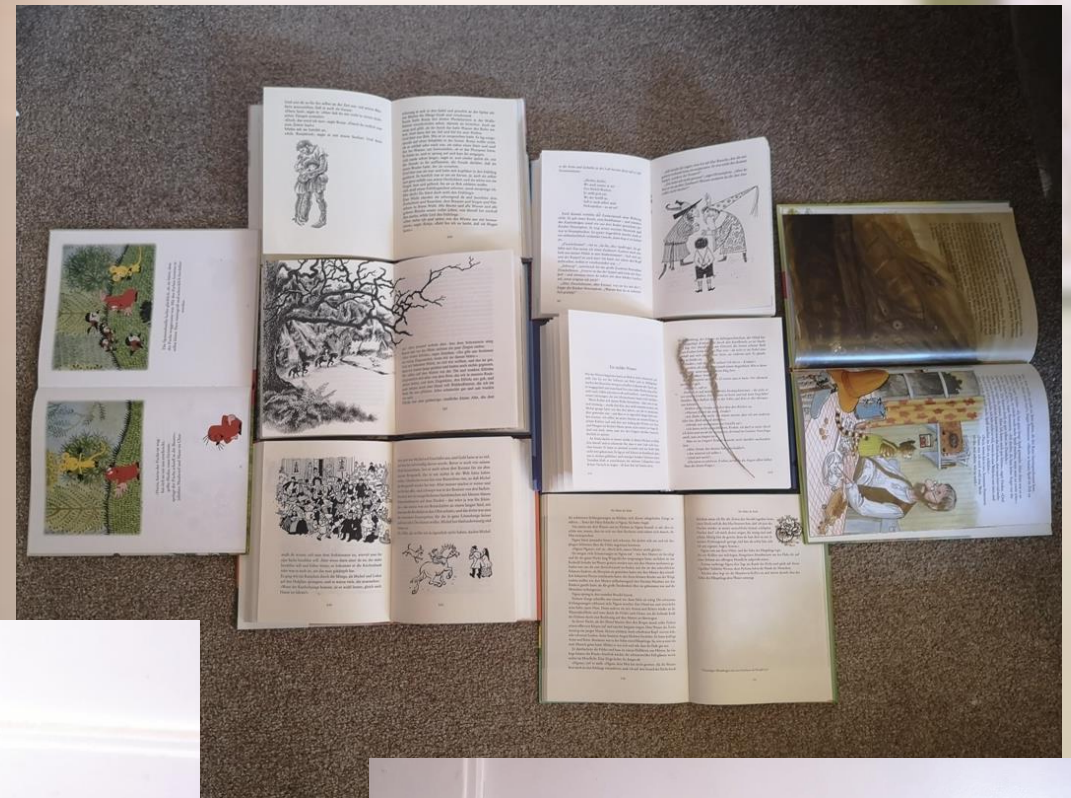

## Children's Book

My little Dark age – A Children's Story

- How is such an event portrayed and explained to a child?

(Children's book as a medium to show an event in a more abstract and simplified manner)

- depicts the side of the new union

## Graffiti

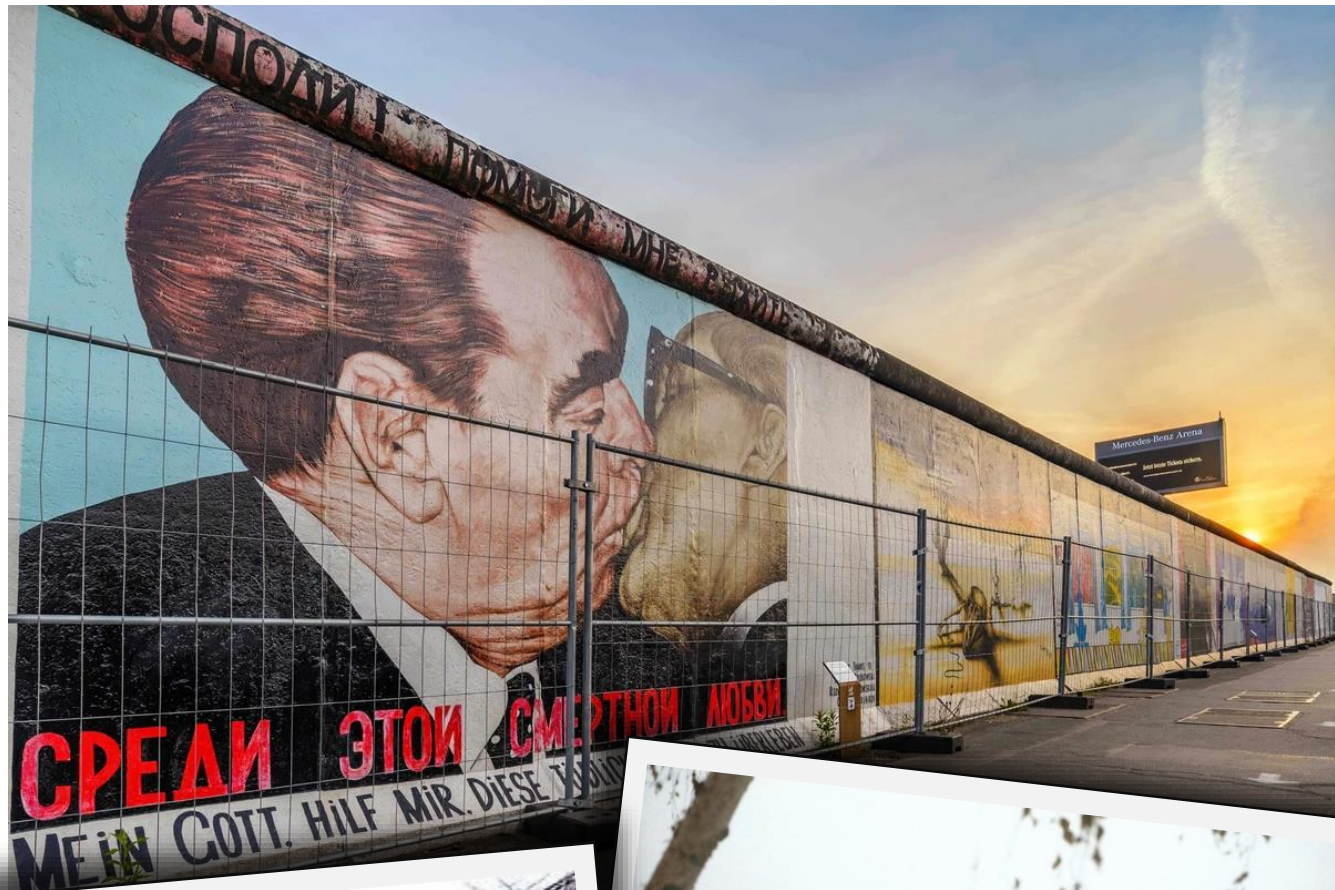

Better stay asleep You elites

- How do people express their feelings and opinions on this event and the situation they are in?

(Graffiti as a medium a show political and ideological believes)

- depicts the side of the poeple abandoned
