Design Thinking to Empower: Co-create inclusive Urban Future

What if the city became your classroom?

Re-imagine everyday places! Discover how design thinking empowers communities to co-create a inclusive, resilient and meaningful urban futures.

Theorizing From the First Person: Embodiment and the Self in Artistic Research

What happens when research becomes personal?

Research is often seen as observation of phenomena outside ourselves. This course follows Donna Haraway's quote "the god trick is forbidden" and invites participants to explore the subjectivity of research in theory and practice.

Democratic thinking through building blocks – potential of space

How much space does thinking need?

The course will generate creative proposals on how and where people meet and strike up conversations in urban and rural public spaces. It will explore how digital technologies can enhance or support their communication and sense of comfort.

WOMEN IN THE CITY Reading Space and Everyday Care through Gender

Does urban design reinforce social inequalities?

Explore city and architecture through a feminist lens. Analyse how gender shapes space, identify these invisible dimensions of space, and transform them into architectural and urban knowledge.

On Site with More-than-Humans

How can we design the co-existence of humans and non-humans?

The course will explore co-creative development perspectives while taking a look at the forms of co-existence between human and non-human actors at the old nursery in Hohenleuben (Thuringia)

The Secret Life of Objects: Archiving and Storytelling through Everyday Things

What stories, memories and meanings are told by everyday objects?

Explore how everyday objects can tell hidden stories and learn how to archive, narrate, and present them creatively in an alternative museum.

The Atlas of Traces – Reading Weimar Through Its Imprints

What stories are hidden in the traces of a city?

Explore Weimar through observation, documentation, and mapping, creating a collective atlas of its visible and invisible imprints.

Writing Architecture: Critique, Media & Practice

How do write architecuture?

Engage with architecture through critical writing, editorial practices, media analysis, and interdisciplinary observation while exploring the cultural, social, and political dimensions of design.

Mobile third place: a culture cabin in Weimar

How can a mobile culture cabin become a new third place?

This course investigates how mobile cultural spaces can foster community life, participation and dialogue while a local cultural centre that undergoes renovation.
Language level needed: *German A2/B1 or French A2/B1*

Carbon Diaries 2037 Reflections on Eco Futures in a Changing World

How can we critically engage with social and ecological futures?

This course invites students to develop and refine their academic English skills while engaging with questions of responsibility, social justice, democracy, and environmental futures.

Urban Heat Islands: Understanding the context of climatic, cultural and physical conditions in urban environments

How to design resilient cities?

Discover how urban heat islands and built environment are related. Develop mitigation strategies for more resilient cities while starting to learn or to extend GIS skills.

Go, Trabi, Go! – Rethinking Mobility

How can Europe rethink affordable mobility?

Reinvent an iconic people's car and explore new ideas for sustainable, resource-efficient mobility. This is an interdisciplinary innovation challenge that uses the Trabant as a starting point for exploring the future of affordable, sustainable and resource-efficient mobility in Europe.

Disciplines involved:

- ▲ Media
- ✖ Civil & Environmental Engineering
- ● Architecture & Urbanism
- ■ Art & Design

Dates for the online phase will be published on our website in December.
