

T-PROFILE

Looking outside of one's own box is part of the Design-Thinking education: To have a better insight not only into your professional experience and academic knowledge, but also your personality, we would love to see your T-Profile.

There are only two things you have to do, the rest is up to you. The vertical bar must be filled with relevant information about your academic studies. In the horizontal bar, you can give us a glimpse in what drives you; skills and interest that transcend your studies. How you do this - as a text, drawing, diagram or photograph - is completely up to you. It just needs to fit on one page.

So, go wild!

NAME.....
